Subject index*

A

Abdominal aorta and its branches, value of auscultation and phonoarteriography in detecting atherosclerotic involvement of (Zoneraich and Zoneraich), 620

Acetylcholine and epinephrine, intracoronary injection of into various portions of the canine ventricle, cardiac irregularities induced by (Hashimoto and Hashimoto), 197

Action potentials, diaphragmatic, registered in the electrocardiogram (Aygen et al.), 630

Adolescent electrocardiogram, the normal (Strong et al.), 115

Adrenergic neuron, interactions at the: cardiovascular complications of antidepressant therapy (Raisfeld), 129

Adult heart disease in western Nigeria (Brockington and Edington), 27

Aerosol inhalation, electrical sequelae of (Flowers and Horan), 644

Aging, chronologic, left ventricular stroke volume measurements not affected by (Proper and Wall), 843 (Annot.)

Alkaloids, whole leaf and purified: experiments of nature (Burch), 845 (Annot.)

Alternans, electrical: mechanism in pericardial effusion (Usher and Popp), 459

T wave (Enselberg), 437 (Letter to Editor)

Amplitude changes during heart filling and digitalization, QRS (Manoach et al.), 292 (Letter to Editor)

Reply (Pipberger, Ishikawa, and Berson), 295

Anastomosis, aortocoronary, three cases treated with—iatrogenic stenosis of the proximal portion of the coronary arteries (Nakhjavan, Maranhao, and Goldberg), 318

Anatomic studies of the cardiac conducting system in acute myocardial infarction (Hackel et al.), 77

Anemia, cardiovascular effects of (Varat, Adolph, and Fowler), 415

Aneurysm, left ventricular, echocardiographic recognition of (Petersen et al.), 244

Aneurysm of the ascending aorta, acute dissecting, a complication of: stenosis of the right pulmonary artery (Buja et al.), 89

Aneurysmectomy, myocardial, on the electrocardiogram and clinical improvement after (Soloff and Rutenberg), 237

Angina pectoris, medical treatment of I. Relationship of angina pectoris to coronary artery insufficiency (Aronow), 841

severe, prognosis in: medical versus surgical therapy (Russek), 762

Angiographic demonstration of coronary atherosclerosis, clinical significance of (Soloff), 727

phonocardiographic, echocardiographic, and hemodynamic features: atrial myxoma (II) (Nasser et al.), 810

Angiography, atrial, selective left, tracheobronchography as complication of (Goldstein et al.), 392

Angiotensin antibodies and renal hypertension (Macdonald, Boyd, and Peart), 137 (Annot.)

Announcements, 148, 300, 440, 726

Antenatal diagnosis of congenital heart disease by fetal phonocardiography (Iyengar and Fox), 801

Anterior subdivision block, left, isolated or with RBBB, clinical electrocardiographic and vectorcardiographic diagnosis of (Medrano et al.), 447

Antiarrhythmic effects in dogs of lidocaine administered orally and intravenously (Smith, Duce, and Boyes), 365

Antibodies against heart muscle and nuclear constituents in cardiomyopathy (Das, Cassidy, and Petty), 159

angiotensin, and renal hypertension (Macdonald, Boyd, and Peart), 137 (Annot.)

antimyocardial, in patients with coronary heart disease (Bauer, Waters, and Talano), 612

Anticoagulants in pregnancy: a review of indications and complications (Hirsh, Cade, and Gallus), 301

Antidepressant therapy, cardiovascular complications of: interactions at the adrenergic neuron (Raisfeld), 129

Antimetabolite therapy in the post-myocardial-infarction syndrome (Kossowsky, Kim, and Tobin), 527

Antimyocardial antibodies in patients with coronary heart disease (Bauer, Waters, and Talano), 612

Aorta, abdominal, and its branches, value of auscultation and phonoarteriography in detecting atherosclerotic involvement of (Zoneraich and Zoneraich), 620

ascending, acute dissecting aneurysm of, a complication of: stenosis of the right pulmonary artery (Buja et al.), 89

interruption of, congenital cardiovascular anomalies of—Steidele's complex (Takashina et al.), 93

Aortic ball variance (Delman), 291 (Letter to Editor)

Aortocoronary anastomosis, three cases treated with—iatrogenic stenosis of the proximal portion of the coronary arteries (Nakhjavan, Maranhao, and Goldberg), 318

bypass, the murmur of (Karpman), 179

Arrhythmias, atrial (Talmage), 850 (Letter to Editor)

Reply (Hutter and Page), 851 (Letter to Editor)

on exercise in patients with abnormalities of the posterior leaflet of the mitral valve (Sloman, Wong, and Walker), 312

nonsinusal, and atrioventricular conduction changes during hyperbaric oxygenation (Thys et al.), 433 (Annot.)

Arterial hypertension following cerebral arterial occlusion, reflections on the mechanism and significance of (Moore), 286 (Annot.)

occlusion, cerebral, reflections on the mechanism and significance of arterial hypertension following (Moore), 286 (Annot.)

Arteriography, coronary, and left cardiac catheterization, meticulous repair of the arteriotomy in prevention of thrombosis following (Demany, Tambe, and Zimmerman), 134 (Annot.)

Arteriosclerosis, the etiology of—a thought (Burch), 434 (Annot.)

and homocysteinemia (McCully), 571 (Annot.)

*January, pp. 1-148; February, pp. 149-300; March, pp. 301-440; April, pp. 441-580; May, pp. 581-726; June, pp. 727-870.

Arteriotomy, meticulous repair of in prevention of thrombosis following left cardiac catheterization and coronary arteriography (Demany, Tambe, and Zimmerman), 134 (Annot.)
Arteriovenous fistulas, femoral, duration of cardiac systole in children with (Bassingthwaighte and Burchell), 732
Arteritis, coronary, myocardial infarction, and occlusion due to lupus erythematosus (Bonfiglio, Botti, and Hagstrom), 153
Artery(ies), brachial, post-catheterization occlusion of (Jeresaty and Liss), 850 (Letter to Editor)
coronary, iatrogenic stenosis of the proximal portion of the—three cases treated with aortocoronary anastomosis (Nakhjavan, Maranhao, and Goldberg), 318
insufficiency, relationship of angina pectoris to I. the medical treatment of angina pectoris (Aronow), 841
ligation, coronary, in dogs, regional metabolic changes in the myocardium following (Obeid et al.), 189
right pulmonary, stenosis of: a complication of acute dissecting aneurysm of the ascending aorta (Buja et al.), 89
transposition of great, the Frank electrocardiogram in complete: its use in assessment of left ventricular pressure (Restieaux et al.), 219
Atherosclerosis, blood lipid levels, and male sex hormone (Gass), 577 (Letter to Editor)
coronary, clinical significance of angiographic demonstration of (Soloff), 727
Atherosclerotic involvement of abdominal aorta and its branches, value of auscultation and phonoarteriography in detecting (Zoneraich and Zoneraich), 620
Atresia of the right atrial ostium of the coronary sinus unassociated with persistence of the left superior vena cava (Falcone and Roberts), 604
Atrial angiography, selective left, tracheobronchography as complication of (Goldstein et al.), 392
arrhythmias (Talmage), 850 (Letter to Editor) Reply (Hutter and Page), 851 (Letter to Editor)
defects, quantitative Frank vectorcardiograms of normal children and a comparison to those of patients with (Blumenschein et al.), 332
involvement, left, in acute pulmonary edema (Romhilt and Scott), 328
morphologic significance of (Romhilt et al.), 322
myxoma (I) (Nasser et al.), 694
(II) Phonocardiographic, echocardiographic, hemodynamic, and angiographic features (Nasser et al.), 810
right: echocardiographic, phonocardiographic, and hemodynamic signs (Waxler, Kawai, and Kasparian), 251
ostium, right, atreisa of coronary sinus of, unassociated with persistence of left superior vena cava (Falcone and Roberts), 604
premature beats, nonconducted, concealed bundle of His extrasystoles simulating (Cannom et al.), 777
septal defect, iatrogenic: an unusual complication of valvular heart surgery (Timmis, Gordon, and Razvi), 804
septostomy, "medical," hazard of: balloon deflation failure (Hohn and Webb), 389
Atrioventricular conduction changes and nonsinusal arrhythmias during hyperbaric oxygenation (Thys et al.), 433 (Annot.)
concealed (Falkson), 290 (Letter to Editor) Reply (Chung), 291
interaction in man during pacing-induced isorhythmic dissociation (Paulay and Damato), 5
Auscultation and phonoarteriography in detecting atherosclerotic involvement of abdominal aorta and its branches, value of (Zoneraich and Zoneraich), 620
A-V conduction in hyper- and hypothyroid dogs (Goel, Hanson, and Han), 504
supernormal (Mustafa), 723 (Letter to Editor) Reply (Damato and Lau), 723

B

Ball variance, aortic (Delman), 291 (Letter to Editor)
Ballistocardiographic forces evoked by beats of pacemaker than by those of sinus origin, a case with much larger (Dock), 678
Balloon deflation failure: hazard of "medical" atrial septostomy (Hohn and Webb), 389
(BAPN), the lathyrogen beta-aminopropionitrile, ectopia cordis (ectocardia) and gastroschisis induced in rats by the maternal administration of (Barrow and Willis), 518
Benign tumor of the heart causing complete heart block (Manion et al.), 535
Beta-adrenergic blockade, the effect of on cardiac responses to orthostatic stress, (Spodick, Meyer, and St. Pierre), 719 (Annot.)
aminopropionitrile (BAPN), the lathyrogen, ectopia cordis (ectocardia) and gastroschisis induced in rats by the maternal administration of (Barrow and Willis), 518
Biophysical aspects of the intracranial circulation (Moskalenko et al.), 401
Bipolar esophageal electrocardiography, filtered (Barold), 431 (Annot.)
Block(s), fascicular, and the bilateral bundle branch block syndrome (Pryor), 441
heart, complete, benign tumor of the heart causing (Manion et al.), 535
left anterior subdivision, isolated or with RBBB, clinical electrocardiographic and vectorcardiographic diagnosis of (Medrano et al.), 447
Blockade, beta-adrenergic, effect of on cardiac responses to orthostatic stress (Spodick, Meyer, and St. Pierre), 719 (Annot.)
Blood lipid levels, atherosclerosis, and male sex hormone (Gass), 577 (Letter to Editor)
plasma catecholamines and their urinary excretion in patients with acute myocardial infarction (Lukomsky and Oganov), 182
pressure, methyldopa and clonidine, comparison of on and side effects in hypertensive patients (Putzeys and Hoobler), 464
supply, systemic, and anomalous pulmonary venous drainage, hypoplastic right lung with: reversal of pulmonary hypertension with surgical management in infancy (Woody et al.), 82
Books received, 147, 299, 439, 580, 726
Book reviews, 146, 298, 438, 579, 725, 852
Brachial artery, post-catheterization occlusion of (Jeresaty and Liss), 850 (Letter to Editor)
Branch block syndrome, bilateral bundle, fascicular blocks and the (Pryor), 441
Bretylium tosylate on the normal and digitalis-sensitized dog heart, effect of (Lipski, Donoso, and Friedberg), 769

Bundle branch block syndrome, bilateral, fascicular blocks and the (Pryor), 441
of His extrasystoles simulating nonconducted atrial premature beats, concealed (Cannom et al.), 777
Bypass, aortocoronary, the murmur of (Karpman), 179
cardiopulmonary, patterns of myocardial oxygen and lactate extraction in patients undergoing (Goldschlager et al.), 167

C

Carbon disulfide poisoning: a review (Davidson and Feinleib), 100
Cardiac catheterization data, analysis of errors in conventional (Schostal, Krovetz, and Rowe), 596
of infants and children, use of Swan-Ganz catheter in (Stanger et al.), 749
left, and coronary arteriography, meticulous repair of the arteriotomy in prevention of thrombosis following (Demany, Tambe, and Zimmerman), 134 (Annot.)
conducting system in acute myocardial infarction, anatomic studies of (Hackel et al.), 77
contractility and energy supply to the heart, relationship between (Hess et al.), 790
cycle, the phases of the (Luisada and MacCanon), 705
glycoside action, the molecular mechanism of (Stern), 712
irregularities induced by intracoronary injection of epinephrine and acetylcholine into various portions of the canine ventricle (Hashimoto and Hashimoto), 197
murmur depending on the Wolff-Parkinson-White syndrome, a (Libretti, Schwartz, and Grazi), 532
output determination with a single flow-directed catheter, thermodilution (Forrester et al.), 306
measurement of, in seriously ill patients, simplified direct Fick techniques for (Scheinman et al.), 61
pacing in Glasgow, a four-year review: 181 Medtronic generators implanted in 127 patients (Green et al.), 265
pathology of transvenous pacemakers (Huang and Baba), 469
performance at rest and during exercise, a new method for evaluation of: densitography (Chirife and Spodick), 493
responses to orthostatic stress, effect of beta-adrenergic blockade on (Spodick, Meyer, and St. Pierre), 719 (Annot.)
rhythm and conduction, effect of cervical cord injury on (Greenhoot and Mauck), 659
systole in children with femoral arteriovenous fistulas, duration of (Bassingthwaighte and Burchell), 732
Cardiogenic shock, pharmacodynamic application of L-dopa in (Lozano et al.), 351
Cardiomyopathy, antibodies against heart muscle and nuclear constituents in (Das, Cassidy, and Petty), 159
ischemic (Burch, Tsui, and Harb), 340
pheochromocytoma without hypertension presenting as (Baker et al.), 688
Cardiopulmonary bypass, patterns of myocardial oxygen and lactate extraction in patients undergoing (Goldschlager et al.), 167
Cardiovascular anomalies of the interruption of the aorta, congenital—Steidele's complex (Takashina et al.), 93
Cardiovascular—Cont'd
complications of antidepressant therapy: interactions at the adrenergic neuron (Raisfeld), 129
effects of anemia (Varat, Adolph, and Fowler), 415
responses to glucagon: physiologic measurement by external recordings (Byrne, Pigott, and Spodick), 635
Catecholamines, blood plasma, and their urinary excretion in patients with acute myocardial infarction (Lukomsky and Oganov), 182
Catheter, flow-directed, single, thermodilution cardiac output determination with (Forrester et al.), 306
Swan-Ganz, in cardiac catheterization of infants and children, use of (Stanger et al.), 749
technique, a new, for producing experimental coronary thrombosis and selective coronary visualization (Kordenat, Kezdi, and Stanley), 360
Catheterization, cardiac, of infants and children, use of Swan-Ganz catheter in (Stanger et al.), 749
data, conventional cardiac, analysis of errors in (Schostal, Krovetz, and Rowe), 596
left cardiac, and coronary arteriography, meticulous repair of the arteriotomy in prevention of thrombosis following (Demany, Tambe, and Zimmerman), 134 (Annot.)
Cell necrosis, a model of based upon heavy metal–membrane interaction: mercury-induced renal necrosis (Verity), 573 (Annot.)
Cerebral arterial occlusion, reflections on the mechanism and significance of arterial hypertension following (Moore), 286 (Annot.)
Cervical cord injury, effect of on cardiac rhythm and conduction (Greenhoot and Mauck), 659
Chance, I'll take a (Burch), 719 (Annot.)
Chronologic aging, left ventricular stroke volume measurements not affected by (Proper and Wall), 843 (Annot.)
Cigarette smoke, inhalation of, effect of on ventricular fibrillation threshold in normal dogs and dogs with acute myocardial infarction (Bellet et al.), 67
Circulation, intracranial, biophysical aspects of the (Moskalenko et al.), 401
Clinical pathologic conference (Fleming, Whitwell, and Heath), 258
significance of the angiographic demonstration of coronary atherosclerosis (Soloff), 727
Clonidine and methyldopa, comparison of on blood pressure and side effects in hypertensive patients (Putzeys and Hoobler), 464
Closing snap, the mitral (Rodbard and Libanoff), 19
Coagulation, intravascular, in acute hepatic necrosis (Flute and Williams), 135 (Annot.)
Conducting system, cardiac, anatomic studies of in acute myocardial infarction (Hackel et al.), 77
Conduction, A-V, in hyper- and hypothyroid dogs (Goel, Hanson, and Han), 504
and cardiac rhythm, effect of cervical cord injury on (Greenhoot and Mauck), 659
changes, atrioventricular, and nonsinusal arrhythmias during hyperbaric oxygenation (Thys et al.), 433 (Annot.)
concealed atrioventricular (Falkson), 290 (Letter to Editor)
(Reply (Chung), 291
supernormal A-V (Mustafa), 723 (Letter to Editor)
Reply (Damato and Lau), 723

Congenital cardiovascular anomalies of the interruption of the aorta—Steidele's complex (Takashina et al.), 93
heart disease, antenatal diagnosis of by fetal phonocardiography (Iyengar and Fox), 801
nutritional management of infants with (Fomon and Ziegler), 581
Congestive heart failure, elegant digitalization for (Burch), 543
Contractility, cardiac, and energy supply to the heart, relationship between (Hess et al.), 790
Contrast media, changes in left ventricular function produced by injection of (Mullins et al.), 373
Cord injury, cervical, effect of on cardiac rhythm and conduction (Greenhoot and Mauck), 659
Coronary arteriography and left cardiac catheterization, meticulous repair of the arteriotomy in prevention of thrombosis following (Demany, Tambe, and Zimmerman), 134 (Annot.)
arteritis, occlusion, and myocardial infarction due to lupus erythematosus (Bonfiglio, Botti, and Hagstrom), 153
arteries, iatrogenic stenosis of the proximal portion of the—three cases treated with aortocoronary anastomosis (Nakhjavan, Maranhao, and Goldberg), 318
artery insufficiency, relationship of angina pectoris to I. the medical treatment of angina pectoris (Aronow), 841
ligation in dogs, regional metabolic changes in the myocardium following (Obeid et al.), 189
atherosclerosis, clinical significance of angiographic demonstration of (Soloff), 727
care unit, mobile, cost of a (Binnion, Makous, and Keller), 723 (Letter to Editor)
dynamics in the conscious dog, effects of acute pulmonary embolism on (Vatner and Van Citters), 50
heart disease, antimyocardial antibodies in patients with (Bauer, Waters, and Talano), 612
sinus, atresia of right atrial ostium of, unassociated with persistence of left superior vena cava (Falcone and Roberts), 604
thrombosis, experimental, and selective coronary visualization, a new catheter technique for producing (Kordenat, Kezdi, and Stanley), 360
visualization, selective, and experimental coronary thrombosis, a new catheter technique for producing (Kordenat, Kezdi, and Stanley), 360
Cutaneous ulceration due to vascular insufficiency, Zinc in (Greaves), 716 (Annot.)

D

Deflation failure, balloon: hazard of "medical" atrial septostomy (Hohn and Webb), 389
Demand pacemakers, ventricular (Hammermeister), 288 (Letter to Editor)
Reply (Furman), 288
Densitography: a new method for evaluation of cardiac performance at rest and during exercise (Chirife and Spodick), 493
Detector evaluation, QRS-wave (Vincent et al.), 475
Diaphragmatic action potentials registered in the electrocardiogram (Aygen et al.), 630
Diazoxide on the veins, the effect of (Thirlwell and Zsotér), 512
Digitalis intoxication, non-cardiac symptoms of (Lely and van Enter), 149
sensitized dog heart, effect of bretylium tosylate on the normal and (Lipski, Donoso, and Friedberg), 769
Digitalization for congestive heart failure, elegant (Burch), 543
and heart filling, QRS amplitude changes during (Manoach et al.), 292 (Letter to Editor)
Reply (Pipberger, Ishikawa, and Berson), 295
Digitoxin and other drugs in man, interactions between (Solomon and Abrams), 277
Dissociation, isorhthymic, pacing-induced, atrioventricular interaction in man during (Paulay and Damato), 5
Dog heart, digitalis-sensitized, effect of bretylium tosylate on the normal and (Lipski, Donoso, and Friedberg), 769
Dopamine, intravenous, in the treatment of myocardial dysfunction after open-heart surgery (Rosenblum and Frieden), 743
Doppler velocimeter, directional vs. bidirectional (Kalmanson), 437 (Letter to Editor)
Double outlet right ventricle, left ventricular obstruction in (Rao), 289 (Letter to Editor)
Reply (Van Praagh), 290
Drugs and maneuvers in the diagnosis of muscular subaortic stenosis (Moreyra et al.), 431 (Annot.)
Dysfunction, papillary muscle, echocardiogram in (Tallury, DePasquale, and Burch), 12

E

Echocardiogram in papillary muscle dysfunction (Tallury, DePasquale, and Burch), 12
Echocardiographic, phonocardiographic, hemodynamic, and angiographic features: atrial myxoma (II) (Nasser et al.), 810
signs of right atrial myxoma (Waxler, Kawai, and Kasparian), 251
recognition of left ventricular aneurysm (Petersen et al.), 244
Ectocardia (ectopia cordis) and gastroschisis induced in rats by maternal administration of the lathyrogen, beta-aminopropionitrile (BAPN) (Barrow and Willis), 518
Ectopia cordis (ectocardia) and gastroschisis induced in rats by maternal administration of the lathyrogen, beta-aminopropionitrile (BAPN) (Barrow and Willis), 518
Edema, pulmonary, acute, left atrial involvement in (Romhilt and Scott), 328
Effusion, pericardial, electrical alternans, mechanism in (Usher and Popp), 459
Electrical alternans: mechanism in pericardial effusion (Usher and Popp), 459
sequelae of aerosol inhalation, the (Flowers and Horan), 644
Electrocardiogram and clinical improvement after myocardial aneurysmectomy, on the (Soloff and Rutenberg), 237
the conventional, initial and terminal notching of the QRS complex in (Raunio and Anttonen), 717 (Annot.)
diaphragmatic action potentials registered in the (Aygen et al.), 630
the Frank, in complete transposition of the great arteries: its use in assessment of left ventricular pressure (Restieaux et al.), 219
human surface, quadrupole components of (Arthur et al.), 663
the normal adolescent (Strong et al.), 115

Electrocardiographic (ECG) recording system, Holter-Avionics, improved method of operating (Tzivoni and Stern), 846 (Annot.)
study of the giraffe, an (Rossof), 142 (Letter to Editor)
and VCG criteria, orthogonal lead (Borun), 144 (Letter to Editor)
Reply (Eddleman and Pipberger), 145
diagnosis of left anterior subdivision block isolated or with RBBB, clinical (Medrano et al.), 447
Electrocardiography, filtered bipolar esophageal (Barold), 431 (Annot.)
Embolism, acute pulmonary, effects of on coronary dynamics in the conscious dog (Vatner and Van Citters), 50
EMC virus in valves of the heart, the (Burch), 570 (Annot.)
Energy supply to the heart, relationship between cardiac contractility and (Hess et al.), 790
Epinephrine and acetylcholine, intracoronary injection of into various portions of the canine ventricle, cardiac irregularities induced by (Hashimoto and Hashimoto), 197
mechanism of sensitization of ventricle to, by halothane (Hashimoto and Hashimoto), 652
Esophageal electrocardiography, filtered bipolar (Barold), 431 (Annot.)
Essential hypertension, propranolol therapy in (Lydtin et al.), 589
Etiology of arteriosclerosis, the—a thought (Burch), 434 (Annot.)
Exercise, arrhythmias on, in patients with abnormalities of the posterior leaflet of the mitral valve (Sloman, Wong, and Walker), 312
maximal, polarcardiographic responses to in healthy young adults (Bruce et al.), 206
Experiments of nature: whole leaf and purified alkaloids (Burch), 845 (Annot.)
Extraction, lactate and myocardial oxygen, patterns of, in patients undergoing cardiopulmonary bypass (Goldschlager et al.), 167
Extrasystoles, His, concealed bundle of simulating nonconducted atrial premature beats, (Cannom et al.), 777

F

Failure, balloon deflation: hazard of "medical" atrial septostomy (Hohn and Webb), 389
respiratory, in shock, phenomenon of: genesis of "shock lung" (Kamada and Smith), 1
Fascicular blocks and the bilateral bundle branch block syndrome (Pryor), 441
Femoral arteriovenous fistulas, duration of cardiac systole in children with (Bassingthwaighte and Burchell), 732
Fetal phonocardiography, antenatal diagnosis of congenital heart disease by (Iyengar and Fox), 801
Fibrillation threshold, ventricular, in normal dogs and dogs with acute myocardial infarction, effect of inhalation of cigarette smoke on (Bellet et al.), 67
Fick techniques, simplified direct, for measurement of cardiac output in seriously ill patients (Scheinman et al.), 61
Fistulas, femoral arteriovenous, duration of cardiac systole in children with (Bassingthwaighte and Burchell), 732
Frank electrocardiogram in complete transposition of the great arteries: its use in assessment of left ventricular pressure (Restieaux et al.), 219
vectorcardiograms, quantitative, of normal children and a comparison to those of patients with atrial defects (Blumenschein et al.), 332

G

Gastroschisis and ectopia cordis (ectocardia) induced in rats by maternal administration of the lathyrogen, beta-aminopropionitrile (BAPN) (Barrow and Willis), 518
Giraffe, an electrocardiographic study of (Rossof), 142 (Letter to Editor)
Glucagon, cardiovascular responses to: physiologic measurement by external recordings (Byrne, Pigott, and Spodick), 635
Glycoside action, cardiac, the molecular mechanism of (Stern), 712
Graphic studies concerning the body surface distribution of T potentials (Abildskov et al.), 283 (Annot.)
Great arteries, transposition of the, the Frank electrocardiogram in complete: its use in assessment of left ventricular pressure (Restieaux et al.), 219

H

Halothane, mechanism of sensitization of ventricle to epinephrine by (Hashimoto and Hashimoto), 652
Heart block, complete, benign tumor of the heart causing (Manion et al.), 535
disease, adult, in western Nigeria (Brockington and Edington), 27
congenital, antenatal diagnosis of by fetal phonocardiography (Iyengar and Fox), 801
nutritional management of infants with (Formon and Ziegler), 581
coronary, antimyocardial antibodies in patients with (Bauer, Waters, and Talano), 612
energy supply to, relationship between cardiac contractility and (Hess et al.), 790
failure, insulin secretion in (Taylor et al.), 281 (Annot.)
congestive, elegant digitalization for (Burch), 543
filling and digitalization, QRS amplitude changes during (Manoach et al.), 292 (Letter to Editor)
Reply (Pipberger, Ishikawa, and Berson), 295
dog, digitalis-sensitized, effect of bretylium tosylate on the normal and (Lipski, Donoso, and Friedberg), 769
muscle and nuclear constituents in cardiomyopathy, antibodies against (Das, Cassidy, and Petty), 159
surgery, valvular, an unusual complication of: iatrogenic atrial septal defect (Timmis, Gordon, and Razvi), 804
tumor, benign, causing complete heart block (Manion et al.), 535
valves, the EMC virus in (Burch), 570 (Annot.)
Hemiblock, transient: an abnormal type of response to the Master two-step test (Kulbertus and Humblet), 574 (Annot.)
Hemodynamic, echocardiographic, phonocardiographic, and angiographic features: atrial myxoma (II) (Nasser et al.), 810
phonocardiographic, and echocardiographic signs of right atrial myxoma (Waxler, Kawai, and Kasparian), 251
Hemorrhage, experimental intracranial, myocardial lesions following: prevention with propranolol (Hunt and Gore), 232

Hepatic necrosis, acute, intravascular coagulation in (Flute and Williams), 135 (Annot.)
His extrasystoles simulating nonconducted atrial premature beats, concealed bundle of (Cannom et al.), 777
Holter-Avionics ECG recording system, improved method of operating (Tzivoni and Stern), 846 (Annot.)
Homocysteinemia and arteriosclerosis (McCully), 571 (Annot.)
Hormone, male sex, blood lipid levels, and atherosclerosis (Gass), 577 (Letter to Editor)
Human surface electrocardiogram, quadrupole components of (Arthur et al.), 663
Hyper- and hypothyroid dogs, A-V conduction in (Goel, Hanson, and Han), 504
Hyperbaric oxygenation, nonsinusal arrhythmias and atrioventricular conduction changes during (Thys et al.), 433 (Annot.)
Hypertension, arterial, following cerebral arterial occlusion, reflections on the mechanism and significance of (Moore), 286 (Annot.)
essential, propranolol therapy in (Lydtin et al.), 589
pheochromocytoma without, presenting as cardiomyopathy (Baker et al.), 688
propranolol in: a study of long-term therapy, 1964-1970 (Zacharias et al.), 755
pulmonary, reversal of with surgical management in infancy: hypoplastic right lung with systemic blood supply and anomalous pulmonary venous drainage (Woody et al.), 82
renal, and angiotensin antibodies (Macdonald, Boyd, and Peart), 137 (Annot.)
severe systemic, and muscular subaortic stenosis (Alday, Wagner, and Vlad), 395
treated and untreated, the prognosis of and advantages of early treatment (Smirk), 825
Hypertensive patients, comparison of clonidine and methyldopa on blood pressure and side effects in (Putzeys and Hoobler), 464
Hypoplastic right lung with systemic blood supply and anomalous pulmonary venous drainage: reversal of pulmonary hypertension with surgical management in infancy (Woody et al.), 82
Hypothyroid and hyper-dogs, A-V conduction in (Goel, Hanson, and Han), 504

I

Iatrogenic atrial septal defect: an unusual complication of valvular heart surgery (Timmis, Gordon, and Razvi), 804
stenosis of the proximal portion of the coronary arteries—three cases treated with aorto-coronary anastomosis (Nakhjavan, Maranhao, and Goldberg), 318
"I'll take a chance" (Burch), 719 (Annot.)
Infants with congenital heart disease, nutritional management of (Fomon and Ziegler), 581
Infarction, acute myocardial, anatomic studies of the cardiac conducting system in (Hackel et al.), 77
blood plasma catecholamines and their urinary excretion in patients with (Lukomsky and Oganov), 182
effect of inhalation of cigarette smoke on ventricular fibrillation threshold in normal dogs and dogs with (Bellet et al.), 67
thrombolytic therapy for (Sherry), 427
experimental papillary muscle, mitral insufficiency following (Fischer, Wessel, and Sommers), 382
Infarction—Cont'd
myocardial, associated with Wolff-Parkinson-White syndrome (Verani, Baron, and Maia), 684
occlusion and coronary arteritis due to lupus erythematosus (Bonfiglio, Botti, and Hagstrom), 153
syndrome, post myocardial, antimetabolite therapy in the (Kossowsky, Kim, and Tobin), 527
Inhalation of cigarette smoke, effect of on ventricular fibrillation threshold in normal dogs and dogs with acute myocardial infarction (Bellet et al.), 67
Initial and terminal notching of the QRS complex in the conventional electrocardiogram (Raunio and Anttonen), 717 (Annot.)
Insufficiency, coronary artery, relationship of angina pectoris to I. the medical treatment of angina pectoris (Aronow), 841
mitral, following experimental papillary muscle infarction (Fischer, Wessel, and Sommers), 382
vascular, zinc in cutaneous ulceration due to (Greaves), 716 (Annot.)
Insulin secretion in heart failure (Taylor et al.), 281 (Annot.)
Interaction(s), atrioventricular, in man during pacing-induced isorhythmic dissociation (Paulay and Damato), 5
between digitoxin and other drugs in man (Solomon and Abrams), 277
Internal mammary implantation, left ventricular function following (Murray et al.), 41
Interruption of the aorta, congenital cardiovascular anomalies of—Steidele's complex (Takashina et al.), 93
Intoxication, digitalis, non-cardiac symptoms of (Lely and van Enter), 149
Intracoronary injection of epinephrine and acetylcholine into various portions of the canine ventricle, cardiac irregularities induced by (Hashimoto and Hashimoto), 197
Intracranial circulation, biophysical aspects of the (Moskalenko et al.), 401
hemorrhage, experimental, myocardial lesions following: prevention with propranolol (Hunt and Gore), 232
Intravascular coagulation in acute hepatic necrosis (Flute and Williams), 135 (Annot.)
Intravenous dopamine in the treatment of myocardial dysfunction after open-heart surgery (Rosenblum and Frieden), 743
Ischemic cardiomyopathy (Burch, Tsui, and Harb), 340
Isoproterenol-induced myocardial lactate production, validity of: an internal control (Krasnow and Rohl), 143 (Letter to Editor)
Isorhythmic dissociation, pacing-induced, atrioventricular interaction in man during (Paulay and Damato), 5

L

Lactate and myocardial oxygen extraction in patients undergoing cardiopulmonary bypass, patterns of (Goldschlager et al.), 167
production, myocardial, validity of isoproterenol-induced: an internal control (Krasnow and Rohl), 143 (Letter to Editor)
Lathyrogen, beta-aminopropionitrile (BAPN), ectopia cordis (ectocardia) and gastroschisis induced in rats by the maternal administration of the (Barrow and Willis), 518
L-dopa, pharmacodynamic application of in cardiogenic shock (Lozano et al.), 351

Lesions, myocardial, following experimental intracranial hemorrhage: prevention with propranolol (Hunt and Gore), 232
Lidocaine, administered orally and intravenously, antiarrhythmic effects in dogs of (Smith, Duce, and Boyes), 365
Ligation, coronary artery, in dogs, regional metabolic changes in the myocardium following (Obeid et al.), 189
Lipid levels, blood, atherosclerosis, and male sex hormone (Gass), 577 (Letter to Editor)
Lithium, prophylactic: science or science fiction (Blackwell), 139 (Annot.)
Longevity (*People live no longer anymore*)—(Burch), 285 (Annot.)
Lung, hypoplastic right, with systemic blood supply and anomalous pulmonary venous drainage: reversal of pulmonary hypertension with surgical management in infancy (Woody et al.), 82
Lupus erythematosus, coronary arteritis, occlusion, and myocardial infarction due to (Bonfiglio, Botti, and Hagstrom), 153

M

Male sex hormone, blood lipid levels, and atherosclerosis (Gass), 577 (Letter to Editor)
Mammary implantation, internal, left ventricular function following (Murray et al.), 41
Maps, serial instantaneous surface potential, and vectorcardiograms in normal young men, correlative analysis of (Olliff, Horan, and Flowers), 780
Master two-step test, an abnormal type of response to the: transient hemiblock (Kulbertus and Humblet), 574 (Annot.)
Mercury-induced renal necrosis: a model of cell necrosis based upon heavy metal–membrane interaction (Verity), 573 (Annot.)
Metabolic changes, regional, in the myocardium following coronary artery ligation in dogs (Obeid et al.), 189
Metal–membrane interaction, heavy, a model of cell necrosis based upon: mercury-induced renal necrosis (Verity), 573 (Annot.)
Methyldopa and clonidine, comparison of on blood pressure and side effects in hypertensive patients (Putzeys and Hoobler), 464
Mitral closing snap, the (Rodbard and Libanoff), 19
  insufficiency following experimental papillary muscle infarction (Fischer, Wessel, and Sommers), 382
  valve, arrhythmias on exercise in patients with abnormalities of the posterior leaflet of the (Sloman, Wong, and Walker), 312
Mobile coronary care unit, cost of a (Binnion, Makous, and Keller), 723 (Letter to Editor)
Molecular mechanism of cardiac glycoside action, the (Stern), 712
Morphologic significance of left atrial involvement (Romhilt et al.), 322
Murmur of aortocoronary bypass, the (Karpman), 179
  cardiac, depending on the Wolff-Parkinson-White syndrome (Libretti, Schwartz, and Grazi), 532
Muscular subaortic stenosis and severe systemic hypertension (Alday, Wagner, and Vlad), 395
Myocardial aneurysmectomy, on the electrocardiogram and clinical improvement after (Soloff and Rutenberg), 237
  dysfunction after open-heart surgery, intravenous dopamine in the treatment of (Rosenblum and Frieden), 743
Myocardial—Cont'd
  infarction, acute, anatomic studies of the cardiac conducting system in (Hackel et al.), 77
    blood plasma catecholamines and their urinary excretion in patients with (Lukomsky and Oganov), 182
    effect of inhalation of cigarette smoke on ventricular fibrillation threshold in normal dogs and dogs with (Bellet et al.), 67
    thrombolytic therapy for (Sherry), 427
  associated with Wolff-Parkinson-White syndrome (Verani, Baron, and Maia), 684
  occlusion and coronary arteritis due to lupus erythematosus (Bonfiglio, Botti, and Hagstrom), 153
  syndrome, post, antimetabolite therapy in the (Kossowsky, Kim, and Tobin), 527
  lactate production, validity of isoproterenol-induced: an internal control (Krasnow and Rohl), 143 (Letter to Editor)
  lesions following experimental intracranial hemorrhage: prevention with propranolol (Hunt and Gore), 232
  oxygen and lactate extraction in patients undergoing cardiopulmonary bypass, patterns of (Goldschlager et al.), 167
Myocardium, regional metabolic changes in following coronary artery ligation in dogs (Obeid et al.), 189
Myxoma, atrial (I) (Nasser et al.), 694
  (II) Phonocardiographic, echocardiographic, hemodynamic, and angiographic features (Nasser et al.), 810
  right atrial: echocardiographic, phonocardiographic, and hemodynamic signs (Waxler, Kawai, and Kasparian), 251

N

Nature, experiments of: whole leaf and purified alkaloids (Burch), 845 (Annot.)
Necrosis, acute hepatic, intravascular coagulation in (Flute and Williams), 135 (Annot.)
  cell, a model of based upon heavy metal–membrane interaction: mercury-induced renal necrosis (Verity), 573 (Annot.)
  renal, mercury-induced: a model of cell necrosis based upon heavy metal–membrane interaction (Verity), 573 (Annot.)
Neuron, adrenergic, interactions at the: cardiovascular complications of antidepressant therapy (Raisfeld), 129
Nigeria, western, adult heart disease in (Brockington and Edington), 27
Non-cardiac symptoms of digitalis intoxication, (Lely and van Enter), 149
Nonsinusal arrhythmias and atrioventricular conduction changes during hyperbaric oxygenation (Thys et al.), 433 (Annot.)
Normal adolescent electrocardiogram, the (Strong et al.), 115
Notching, initial and terminal, of the QRS complex in the conventional electrocardiogram (Raunio and Anttonen), 717 (Annot.)
Nuclear constituents and heart muscle in cardiomyopathy, antibodies against (Das, Cassidy, and Petty), 159
Nutritional management of infants with congenital heart disease (Fomon and Ziegler), 581

O

Obstruction, left ventricular, in double outlet right ventricle (Rao), 289 (Letter to Editor)
  Reply (Van Praagh), 290
Occlusion of the brachial artery, post-catheterization (Jeresaty and Liss), 850 (Letter to Editor)

Occlusion—Cont'd
cerebral arterial, reflections on the mechanism and significance of arterial hypertension following (Moore), 286 (Annot.)
coronary arteritis, and myocardial infarction due to lupus erythematosus (Bonfiglio, Botti, and Hagstrom), 153
Open-heart surgery, intravenous dopamine in the treatment of myocardial dysfunction after (Rosenblum and Frieden), 743
Orthogonal lead ECG and VCG criteria (Borun), 144 (Letter to Editor)
Reply (Eddleman and Pipberger), 145 (Letter to Editor)
Orthostatic stress, effect of beta-adrenergic blockade on cardiac responses to (Spodick, Meyer, and St. Pierre), 719 (Annot.)
Ostium, right atrial, atresia of coronary sinus of, unassociated with persistence of left superior vena cava (Falcone and Roberts), 604
Output determination, cardiac, thermodilution, with a single flow-directed catheter (Forrester et al.), 306
Oxygenation, hyperbaric, nonsinusal arrhythmias and atrioventricular conduction changes during (Thys et al.), 433 (Annot.)

P

Pacemaker(s), failure modes of American—*in vitro* analysis (Rockland, Parsonnet, and Myers), 481
frontal plane vector plotter, a (Green and Hannan), 847 (Annot.)
much larger ballistocardiographic forces evoked by beats of than by those of sinus origin, a case with (Dock), 678
transvenous, cardiac pathology of (Huang and Baba), 469
ventricular demand (Hammermeister), 288 (Letter to Editor)
Reply (Furman), 288
Pacing, cardiac, in Glasgow, a four-year review (Green et al.), 265
Papillary muscle dysfunction, echocardiogram in (Tallury, DePasquale, and Burch), 12
infarction, experimental, mitral insufficiency following (Fischer, Wessel, and Sommers), 382
People live no longer anymore (Burch), 285 (Annot.)
Pericardial effusion, electrical alternans, mechanism in (Usher and Popp), 459
procainamide-induced (Anderson and Genton), 798
Pharmacodynamic application of L-dopa in cardiogenic shock (Lozano et al.), 351
Pheochromocytoma without hypertension presenting as cardiomyopathy (Baker et al.), 688
Phonoarteriography and auscultation in detecting atherosclerotic involvement of abdominal aorta and its branches, value of (Zoneraich and Zoneraich), 620
Phonocardiographic, echocardiographic, hemodynamic, and angiographic features: atrial myxoma (II) (Nasser et al.), 810
signs of right atrial myxoma (Waxler, Kawai, and Kasparian), 251
Phonocardiography, fetal, antenatal diagnosis of congenital heart disease by (Iyengar and Fox), 801
Platelets and thrombogenesis—current concepts (Schnetzer), 552
Plotter, a pacemaker frontal plane vector (Green and Hannan), 847 (Annot.)
Poisoning, carbon disulfide (Davidson and Feinleib), 100
Polarcardiographic responses to maximal exercise in healthy young adults (Bruce et al.), 206
Post-catheterization occlusion of the brachial artery (Jeresaty and Liss), 850 (Letter to Editor)
myocardial-infarction syndrome, antimetabolite therapy in the (Kossowsky, Kim, and Tobin), 527
Pregnancy, anticoagulants in: a review of indications and complications (Hirsh, Cade, and Gallus), 301
Pressure, blood, methyldopa and clonidine, comparison of on and side effects in hypertensive patients (Putzeys and Hoobler), 464
left ventricular, use of the Frank electrocardiogram in assessment of with complete transposition of the great arteries (Restieaux et al.), 219
Procainamide-induced pericardial effusion (Anderson and Genton), 798
Prophylactic lithium: science or science fiction (Blackwell), 139 (Annot.)
Propranolol in hypertension: a study of long-term therapy, 1964-1970 (Zacharias et al.), 755
myocardial lesions following experimental intracranial hemorrhage, prevention with (Hunt and Gore), 232
therapy in essential hypertension (Lydtin et al.), 589
Pulmonary artery, right, stenosis of: a complication of acute dissecting aneurysm of the ascending aorta (Buja et al.), 89
edema, acute, left atrial involvement in (Romhilt and Scott), 328
embolism, acute, effects of on coronary dynamics in the conscious dog (Vatner and Van Citters), 50
hypertension, reversal of with surgical management in infancy: hypoplastic right lung with systemic blood supply and anomalous pulmonary venous drainage (Woody et al.), 82
venous drainage, anomalous, hypoplastic right lung with systemic blood supply and: reversal of pulmonary hypertension with surgical management in infancy (Woody et al.), 82

Q

Quadrupole components of the human surface electrocardiogram (Arthur et al.), 663
QRS amplitude changes during heart filling and digitalization (Manoach et al.), 292 (Letter to Editor)
Reply (Pipberger, Ishikawa, and Berson), 295
complex in the conventional electrocardiogram, initial and terminal notching of the (Raunio and Anttonen), 717 (Annot.)
wave detector evaluation (Vincent et al.), 475

R

RBBB, left anterior subdivision block isolated or with, clinical electrocardiographic and vectorcardiographic diagnosis of (Medrano et al.), 447
Renal hypertension and angiotensin antibodies (Macdonald, Boyd, and Peart), 137 (Annot.)
necrosis, mercury-induced: a model of cell necrosis based upon heavy metal–membrane interaction (Verity), 573 (Annot.)
Respiratory failure in shock, phenomenon of: genesis of "shock lung" (Kamada and Smith), 1

S

Secretion, insulin, in heart failure (Taylor et al.), 281 (Annot.)
Sensitization of the ventricle to epinephrine by halothane, mechanism of (Hashimoto and Hashimoto), 652
Septal defect, atrial, iatrogenic: an unusual complication of valvular heart surgery (Timmis, Gordon, and Razvi), 804
Septostomy, "medical" atrial, hazard of: balloon deflation failure (Hohn and Webb), 389
Sequelae of aerosol inhalation, electrical (Flowers and Horan), 644
Serial instantaneous surface potential maps and vectorcardiograms in normal young men, correlative analysis of (Olliff, Horan, and Flowers), 780
Sex hormone, male, blood lipid levels, and atherosclerosis (Gass), 577 (Letter to Editor)
Shock, cardiogenic, pharmacodynamic application of L-dopa in (Lozano et al.), 351
  lung, genesis of: phenomenon of respiratory failure in shock (Kamada and Smith), 1
  respiratory failure in, phenomenon of: genesis of "shock lung" (Kamada and Smith), 1
Sinus, coronary, atresia of right atrial ostium of, unassociated with persistence of left superior vena cava (Falcone and Roberts), 604
  origin, beats of, case with much larger ballistocardiographic forces evoked by beats of pacemaker than by (Dock), 678
Steidele's complex—congenital cardiovascular anomalies of the interruption of the aorta (Takashina et al.), 93
Stenosis, iatrogenic, of the proximal portion of the coronary arteries—three cases treated with aortocoronary anastomosis (Nakhjavan, Maranhao, and Goldberg), 318
  muscular subaortic, drugs and maneuvers in the diagnosis of (Moreyra et al.), 431 (Annot.)
  of the right pulmonary artery: a complication of acute dissecting aneurysm of the ascending aorta (Buja et al.), 89
  subaortic, muscular, and severe systemic hypertension (Alday, Wagner, and Vlad), 395
Stroke volume measurements, left ventricular, not affected by chronologic aging (Proper and Wall), 843 (Annot.)
Subaortic stenosis, muscular, drugs and maneuvers in the diagnosis of (Moreyra et al.), 431 (Annot.)
    and severe systemic hypertension (Alday, Wagner, and Vlad), 395
Superior vena cava, left, atresia of right atrial ostium of coronary sinus unassociated with persistence of (Falcone and Roberts), 604
Surface potential maps, serial instantaneous, and vectorcardiograms in normal young men, correlative analysis of (Olliff, Horan, and Flowers), 780
Surgical management in infancy, reversal of pulmonary hypertension with: hypoplastic right lung with systemic blood supply and anomalous pulmonary venous drainage (Woody et al.), 82
Swan-Ganz catheter in cardiac catheterization of infants and children, use of (Stanger et al.), 749
Systemic blood supply and anomalous pulmonary venous drainage, hypoplastic right lung with: reversal of pulmonary hypertension with surgical management in infancy (Woody et al.), 82
  hypertension, severe, and muscular subaortic stenosis (Alday, Wagner, and Vlad), 395
Systole, cardiac, duration of in children with femoral arteriovenous fistulas (Bassingthwaighte and Burchell), 732

T

Terminal and initial notching of the QRS complex in the conventional electrocardiogram (Raunio and Anttonen), 717 (Annot.)
Therapy, antidepressant, cardiovascular complications of: interactions at the adrenergic neuron (Raisfeld), 129
  propranolol, in essential hypertension (Lydtin et al.), 589
Thermodilution cardiac output determination with a single flow-directed catheter (Forrester et al.), 306
Thrombogenesis and platelets—current concepts (Schnetzer), 552
Thrombolytic therapy for acute myocardial infarction (Sherry), 427
Thrombosis, experimental coronary, and selective coronary visualization, a new catheter technique for producing (Kordenat, Kezdi, and Stanley), 360
  following left cardiac catheterization and coronary arteriography, meticulous repair of the arteriotomy in prevention of (Demany, Tambe, and Zimmerman), 134 (Annot.)
Tosylate, bretylium, effect of on the normal and digitalis-sensitized dog heart (Lipski, Donoso, and Friedberg), 769
T potentials, graphic studies concerning the body surface distribution of (Abildskov et al.), 283 (Annot.)
Transvenous pacemakers, cardiac pathology of (Huang and Baba), 469
T wave alternans (Enselberg), 437 (Letter to Editor)
Two-step test, Master, an abnormal type of response to the: transient hemiblock (Kulbertus and Humblet), 574 (Annot.)
Tracheobronchography as complication of selective left atrial angiography (Goldstein et al.), 392
Transient hemiblock: an abnormal type of response to the Master two-step test (Kulbertus and Humblet), 574 (Annot.)
Transposition of the great arteries, the Frank electrocardiogram in complete: its use in assessment of left ventricular pressure (Restieaux et al.), 219
Tumor, benign heart, causing complete heart block (Manion et al.), 535

U

Ulceration, cutaneous, due to vascular insufficiency, zinc in (Greaves), 716 (Annot.)
Urinary excretion of blood plasma catecholamines in patients with acute myocardial infarction (Lukomsky and Oganov), 182

V

Valve(s), heart, the EMC virus in (Burch), 570 (Annot.)
  mitral, arrhythmias on exercise in patients with abnormalities of the posterior leaflet of the (Sloman, Wong, and Walker), 312
Valvular heart surgery, an unusual complication of: iatrogenic atrial septal defect (Timmis, Gordon, and Razvi), 804
Vascular insufficiency, zinc in cutaneous ulceration due to (Greaves), 716 (Annot.)
Vectorcardiograms, quantitative Frank, of normal children and a comparison to those of patients with atrial defects (Blumenschein et al.), 332

Vectorcardiograms—Cont'd
and serial instantaneous surface potential maps in normal young men, correlative analysis of (Olliff, Horan, and Flowers), 780
Vectorcardiographic (VCG) and ECG criteria, orthogonal lead (Borun), 144 (Letter to Editor)
Reply (Eddleman and Pipberger), 145
diagnosis of left anterior subdivision block isolated or with RBBB, clinical (Medrano et al.), 447
Veins, the effect of diazoxide on the (Thirlwell and Zsotér), 512
Velocimeter, Doppler, directional vs. bidirectional (Kalmanson), 437 (Letter to Editor)
Vena cava, left superior, atresia of right atrial ostium of coronary sinus unassociated with persistence of (Falcone and Roberts), 604
Venous drainage, anomalous pulmonary, hypoplastic right lung with systemic blood supply and: reversal of pulmonary hypertension with surgical management in infancy (Woody et al.), 82
Ventricle, canine, cardiac irregularities induced by intracoronary injection of epinephrine and acetylcholine into various portions of the (Hashimoto and Hashimoto), 197
double outlet right, left ventricular obstruction in (Rao), 289 (Letter to Editor)
Reply (Van Praagh), 290
mechanism of sensitization of, to epinephrine by halothane (Hashimoto and Hashimoto), 652
Ventricular aneurysm, left, echocardiographic recognition of (Petersen et al.), 244
Ventricular—Cont'd
demand pacemakers (Hammermeister), 288 (Letter to Editor)
Reply (Furman), 288
fibrillation threshold in normal dogs and dogs with acute myocardial infarction, effect of inhalation of cigarette smoke on (Bellet et al.), 67
function following internal mammary implantation, left (Murray et al.), 41
left, changes in produced by injection of contrast media (Mullins et al.), 373
obstruction in double outlet right ventricle, left (Rao), 289 (Letter to Editor)
Reply (Van Praagh), 290
pressure, left, use of Frank electrocardiogram in assessment of with complete transposition of the great arteries (Restieaux et al.), 219
stroke volume measurements, left, not affected by chronologic aging (Proper and Wall), 843 (Annot.)
Virus, the EMC, in valves of the heart (Burch), 570 (Annot.)

W

Wolff-Parkinson-White syndrome, a cardiac murmur depending on the (Libretti, Schwartz, and Grazi), 532
myocardial infarction associated with (Verani, Baron, and Maia), 684
treatment of (Mark and Luna), 565

Z

Zinc in cutaneous ulceration due to vascular insufficiency (Greaves), 716 (Annot.)

American Heart Journal

An international publication for the study of the circulation

Subject index*

A

Acknowledgment to reviewers, 721

Adrenalectomy and chemoreceptor denervation, ventricular responses to hypoxemia following (Achtel and Downing), 377

Adrenal veins and kidney, interrupted eccentric longitudinal muscle fibers of (Payan and Gilbert), 76

Alcoholics, cardiomyopathy without cardiomegaly in (Asokan, Frank, and Witham), 13

Alpha blockade prior to open-heart surgery, response of Class IV patients to (Burack et al.), 456

Alternans, electrical (Spodick), 574 (Letter to Editor)
Reply (Usher and Popp), 574

Amiloride and potassium supplements, long-term effects of: exchangeable potassium in heart disease (Croxson, Neutze, and John), 53

Amyloid disease, postural hypotension in (Gaan et al.), 395

Anastomoses, major, in chronically ischemic canine hearts, functional capacity of (Cibulski et al.), 787

Anatomic deformity in calcific aortic stenosis, a new roentgenographic assessment of (Stein), 321

Anesthetic agents, two, effects of on production of hypoxic pulmonary hypertension in dogs (Susmano, Passovoy, and Carleton), 203

Angina pectoris, medical treatment of II. Design of an antianginal drug study (Aronow), 132
III. Pharmacology of sublingual nitrites as antianginal drugs (Aronow), 273
IV. Nitroglycerin as an antianginal drug (Aronow), 415
V. Long-acting nitrites as antianginal drugs (Aronow), 567
VI. Propranolol as an antianginal drug (Aronow), 706
VII. Newer beta-adrenergic blockers as antianginal drugs (Aronow), 834
and slow flow velocity of dye in coronary arteries—a new angiographic finding (Tambe et al.), 66

Angiographic finding, a new—angina pectoris and slow flow velocity of dye in coronary arteries (Tambe et al.), 66

Angle of traction of papillary muscle in normal and dilated hearts: theoretic analysis of its importance in mitral valve dynamics (Burch and Giles), 141 (Annot.)

Animal studies of effect of chronic exercise on the heart and atherosclerosis: a review (Froelicher), 496

Announcements, 148, 287, 435, 584, 720, 846

Anomalous origin of the left coronary artery from the pulmonary artery, ejection fraction in (Menke, Shaher, and Wolff), 325

Anterior wall myocardial infarction, acute, incomplete bilateral bundle branch block and A-V block complicating (Fenig and Lichstein), 38

Anteroseptal myocardial infarction and their treatment by endocardial pacing, conduction disturbances due to (Norris, Mercer, and Croxson), 560

Antianginal drug(s), long-acting nitrites as V. Medical treatment of angina pectoris (Aronow), 567
newer beta-adrenergic blockers as VII. Medical treatment of angina pectoris (Aronow), 834
nitroglycerin as an: medical treatment of angina pectoris IV (Aronow), 415
pharmacology of sublingual nitrites as III. Medical treatment of angina pectoris (Aronow), 273
propranolol as an VI. The medical treatment of angina pectoris (Aronow), 706
study, design of II. Medical treatment of angina pectoris (Aronow), 132
medication on hemoglobin affinity for oxygen, effects of (Sugimoto and Ishikawa), 570 (Annot.)

Antiarrhythmic agent(s), comparative inotropic effects of six clinically used (Hammermeister, Boerth, and Warbasse), 643
disopyramide phosphate, cardiovascular effects of a newer (Mathur), 764

Antibody response, antinuclear, to procainamide in man and laboratory animals (Whittingham et al.), 228

Anticoagulants in pregnancy (Quick), 284 (Letter to Editor)

Antinuclear antibody response to procainamide in man and laboratory animals (Whittingham et al.), 228

Aorta, coarctation of, and supravalvular aortic stenosis, the vectorcardiogram and electrocardiogram in (Gaum, Chou, and Kaplan), 620

Aortic arch, right-sided cervical (Richie et al.), 531

Aortic-coronary saphenous vein grafts, intimal proliferation in. Light and electron microscopic studies (Kern, Dermer, and Lindesmith), 771

Aortic stenosis, calcific, a new roentgenographic assessment of anatomic deformity in (Stein), 321
supravalvular, and coarctation of the aorta, the vectorcardiogram and electrocardiogram in (Gaum, Chou, and Kaplan), 620

Apexcardiography and ultrasonic Doppler method as reference tracings in phonocardiography, value of (Kostis et al.), 634

Appendage, left atrial, and valve replacement (Thomas), 838 (Annot.)

Arch, right-sided cervical aortic (Richie et al.), 531

Arrhythmia(s) and thrombosis, non-coronary and coronary, experimental, effect of aspirin upon (Moschos et al.), 525
cardiac, analysis of intracavitary electrocardiograms through a saline bridge in diagnosis of (Trujillo et al.), 451

Arterial embolectomy catheter, a complication of the Fogarty (Oehlert), 484
hypertension, benign essential, management of (Burch), 808

Arteriography, selective coronary, left ventricular end-diastolic pressures following (Kavanagh-Gray), 629

Arteriopathy, azotemic (Rosen et al.), 250

Arteriosclerosis, the etiology of (Tilkian), 575 (Letter to Editor)

*July, pp. 1-148; August, pp. 149-288; September, pp. 289-436; October, pp. 437-584; November, pp. 585-720; December, pp. 721-866.

Artery(s), coronary, angina pectoris and slow flow velocity of dye in—a new angiographic finding (Tambe et al.), 66
disease, coronary, in vitro serum cholesterol esterification in (Rutenberg et al.), 348
great, infant with transposition of I. Cardiac catheterization protocol (Mullins, Neches, and McNamara), 597
II. Results of balloon atrial septostomy (Neches, Mullins and McNamara), 603
transposition of, floating a catheter into the pulmonary artery in (Black), 761
implants, internal mammary, use of indicator dilution techniques to determine patency of (Hendrix and Maloy), 136 (Annot.)
internal mammary, implanted into canine myocardium, cause of luminal narrowing in (Yarbrough et al.), 507
left coronary, from the pulmonary artery, ejection fraction in anomalous origin of the (Menke, Shaher, and Wolff), 325
pulmonary, floating a catheter into in transposition of the great arteries (Black), 761
from the left coronary artery, ejection fraction in anomalous origin of the (Menke, Shaher, and Wolff), 325
surgery, coronary, randomized controlled trials of (Kayser), 580 (Letter to Editor)
steal syndrome, subclavian, congenital pulmonary and (Shaher et al.), 103
Aspirin and pulmonary lesions in endotoxin shock (Murthy and Greenway), 581 (Letter to Editor)
effect of upon experimental coronary and noncoronary thrombosis and arrhythmia (Moschos et al.), 525
Asthma, bronchial, practolol in the treatment of tachyarrhythmias in patients with (Formgren), 710 (Annot.)
Ataxia, Friedreich's and myocardiopathies (Glasser), 843 (Letter to Editor)
Reply (Thilenius), 843
associated with idiopathic hypertrophic subaortic stenosis (Ruschhhaupt, Thilenius, and Cassels), 95
Atherosclerosis and heart, animal studies of effect of chronic exercise on (Froelicher), 496
coronary, and myocardial infarction pathogenesis of cardiac hypertrophy in (Badeer), 256
Atrial appendage, left, and valve replacement (Thomas), 838 (Annot.)
communication, right, double-outlet right ventricle with left ventricular: fibrous obstruction of left ventricular outlet by membranous septum and tricuspid leaflet tissue (Megarity et al.), 242
dilation, extreme left, external left atrial pulse tracings in (El-Sherif and El-Ramly), 387
fibrillation after valve replacement, cardioversion of (Jenzer and Lown), 846 (Annot.)
and conduction defects in coronary heart disease, incidence of persistent (Örndahl, Thulesius, and Hood), 120
pacing, assessment of LVEDP from right heart pressures during (Linhart), 279 (Annot.)
pulse tracings, external left, in extreme left atrial dilation (El-Sherif and El-Ramly), 387
septostomy, balloon, results of II. Infant with transposition of the great arteries (Neches, Mullins, and McNamara), 603
Atrioventricular conduction, automaticity, and threshold for stimulation in patients with impaired impulse formation or conduction, effect of glucagon on (Nishimura, Fortner, and Williams), 359
interaction in isorthythmic dissociation (Diederich and Djonlagic), 429 (Letter to Editor)
Reply (Paulay, Damato, and Bobb), 431
automaticity, threshold for stimulation, and atrioventricular conduction in patients with impaired impulse formation or conduction, effect of glucagon on (Nishimura, Fortner, and Williams), 359
A-V block and incomplete bilateral bundle branch block complicating acute anterior wall myocardial infarction (Fenig and Lichstein), 38
levels of concealment in second degree and advanced second degree (Watanabe and Dreifus), 330
Azotemic arteriopathy (Rosen et al.), 250

B

Balloon atrial septostomy, results of II. Infant with transposition of the great arteries (Neches, Mullins, and McNamara), 603
Basophilic (mucoid) degeneration of myocardium, on the chemical nature of (Rosai), 419 (Annot.)
Bedside diagnosis of postinfarction ventricular septal defect using the hydrogen-sensitive, platinum-tipped, wire electrode (Yatteau and Orgain), 712 (Annot.)
Benign essential arterial hypertension, management of (Burch), 808
Beta-adrenergic blockers, newer, as antianginal drugs VII. Medical treatment of angina pectoris (Aronow), 834
Bilateral bundle branch block and A-V block complicating acute anterior wall myocardial infarction, incomplete (Fenig and Lichstein), 38
Block(s), A-V, and incomplete bilateral bundle branch block complicating acute anterior wall myocardial infarction (Fenig and Lichstein), 38
levels of concealment in second degree and advanced second degree (Watanabe and Dreifus), 330
bilateral bundle branch, incomplete, and A-V block complicating acute anterior wall myocardial infarction (Fenig and Lichstein), 38
familial trifascicular (Steenkamp), 758
fascicular, vs. left ventricular hypertrophy (Breall), 575 (Letter to Editor)
Reply (Pryor), 576
left posterior subdivision, isolated or associated with RBBB, clinical electrocardiographic and vectorcardiographic diagnosis of (Medrano et al.), 727
right bundle branch, and left anterior hemiblock before and after surgical repair of tetralogy of Fallot (Chesler, Beck, and Schrire), 45
Blockade, alpha, prior to open-heart surgery, response of Class IV patients to (Burack et al.), 456
Blockers, beta-adrenergic, newer, as antianginal drugs VII. Medical treatment of angina pectoris (Aronow), 834
Blood, conductivity of, and the body tissue and the amplitude of the QRS during heart filling and pericardial compression in the cat, relation between (Manoach et al.), 72

Blood—Cont'd
flow, coronary, in reserpinized dogs, effect of hypoxia on (Koyama and Nakagawa), 487
delayed coronary, detected by computer analysis of serial scans (Smith et al.), 670
pulmonary, and cardiac output in dogs, effects of ouabain on (Treat et al.), 371
pressures of !Kung bushmen in Northern Botswana (Truswell et al.), 5
sampling, regional, for assessing metabolic changes in myocardium (Opie, Owen, and Thomas), 716 (Letter to Editor)
Reply (Obeid), 716
Body tissue and conductivity of the blood and the amplitude of the QRS during heart filling and pericardial compression in the cat, relation between (Manoach et al.), 72
Book reviews, 146, 286, 432, 719, 844
Books received, 147, 287, 434, 583, 719, 845
Branch block, incomplete bilateral bundle, and A-V block complicating acute anterior wall myocardial infarction (Fenig and Lichstein), 38
right bundle, and left anterior hemiblock before and after surgical repair of tetralogy of Fallot (Chesler, Beck, and Schrire), 45
Bronchial asthma, practolol in the treatment of tachyarrhythmias in patients with (Formgren), 710 (Annot.)
Bundle branch block, incomplete bilateral, and A-V block complicating acute anterior wall myocardial infarction (Fenig and Lichstein), 38
right, and left anterior hemiblock before and after surgical repair of tetralogy of Fallot (Chesler, Beck, and Schrire), 45
left, of the canine heart, experimental Luciani-Wenckebach phenomenon in anterior and posterior divisions of (Kretz and Da Ruos), 513
Burch, G. J., Einthoven, and the capillary electrometer (Brody et al.), 280 (Annot.)

C

"C" wave, jugular, relationship of to changing diastolic intervals (Bonner and Tavel), 441
Caffeine on the ventricular fibrillation threshold in normal dogs and dogs with acute myocardial infarction, effect of (Bellet et al.), 215
Calcific aortic stenosis, a new roentgenographic assessment of anatomic deformity in (Stein), 321
Calculation of mitral valve area, modified orifice equation for the (Cohen and Gorlin), 839 (Annot.)
Capillary electrometer, Einthoven, G. J. Burch, and the (Brody et al.), 280 (Annot.)
Cardiac arrhythmias, analysis of intracavitary electrocardiograms through a saline bridge in diagnosis of (Trujillo et al.), 451
catheterization protocol I. Infant with transposition of the great arteries (Mullins, Neches, and McNamara), 597
causalgia and hoarseness (Burch), 420 (Annot.)
death, two hundredth anniversary of self-prediction of sudden, exertional (Bruce), 422 (Annot.)
deterioration replacing cardiac pain after surgery to revascularize the heart (Soloff), 446
disease, congenital, concerning the etiology of (Ruttenberg), 437
hypertrophy in coronary atherosclerosis and myocardial infarction, pathogenesis of (Badeer), 256
Cardiac—Cont'd
output and pulmonary blood flow in dogs, effects of ouabain on (Treat et al.), 371
pain after surgery to revascularize the heart, cardiac deterioration replacing (Soloff), 446
patient and hemodynamics, the (Noordergraaf), 289
valves, myxoid changes in: pathological, clinical, and ultrastructural studies (Kern and Tucker), 294
Cardiomegaly, cardiomyopathy without in alcoholics (Asokan, Frank, and Witham), 13
Cardiomyopathy, hypertrophic obstructive (Jacobs, Yee, and Yu), 428 (Letter to Editor)
its differentiation from that of: the jugular pulse in pericardial constriction (Lisa, Hood, and Tavel), 409
without cardiomegaly in alcoholics (Asokan, Frank, and Witham), 13
Cardiovascular effects of a newer antiarrhythmic agent, disopyramide phosphate (Mathur), 764
toxicity: acute elemental phosphorus poisoning in man (Talley et al.), 139 (Annot.)
Cardioversion of atrial fibrillation after valve replacement (Jenzer and Lown), 840 (Annot.)
Carotid displacement pulse, the first derivative of (Khan and Spodick), 470
sinus pressure, ventricular fibrillation precipitated by: case report and review of the literature (Cohen), 681
Catheter, Fogarty arterial embolectomy, a complication of (Oehlert), 484
into the pulmonary artery, floating a in transposition of the great arteries (Black), 761
marking, terminology in (Pfeiffer), 718 (Letter to Editor)
Catheterization, left heart, improved maneuver for, comment on, (Maranhao), 145 (Letter to Editor)
protocol, cardiac I. Infant with transposition of the great arteries (Mullins, Neches, and McNamara), 597
Causalgia, cardiac, and hoarseness (Burch), 420 (Annot.)
Cephalexin, long-term suppression of foreign body endocarditis with (Craig), 714 (Annot.)
Cerebrospinal fluid pressure, elevated, ECG effects of: Wolff-Parkinson-White type of conduction disturbance (Brashear and Edmands), 653
Cervical aortic arch, right-sided (Richie et al.), 531
Chemical nature of basophilic (mucoid) degeneration of myocardium, on the (Rosai), 419 (Annot.)
Chemoreceptor denervation and adrenalectomy, ventricular responses to hypoxemia following (Achtel and Downing), 377
Childhood electrocardiogram, racial variations in the (Masica, Maron, and Krovetz), 153
Children, hypertension in (Londe and Goldring), 1
Chronic ectopic tachycardia of infancy and childhood (Keane, Plauth, and Nadas), 748
exercise, animal studies of effect of on the heart and atherosclerosis (Froelicher), 496
Cineangiography, pulmonary, in acute pulmonary embolism (Meister et al.), 33
Class IV patients to alpha blockade prior to open-heart surgery, response of (Burack et al.), 456

Clinical manifestations of cystic medionecrosis, unusual (Tse and Yu), 794
pathologic conference (Van Tassel et al.), 110 (Schnitzler et al.), 401 (Karachorlu et al.), 687
"Closing snap" in mitral stenosis, the (Tavel and Feigenbaum), 282 (Letter to Editor) Reply (Rodbard), 283
Coarctation of the aorta and supravalvular aortic stenosis, the vectorcardiogram and electrocardiogram in (Gaum, Chou, and Kaplan), 620
Computer analysis of serial scans, delayed coronary blood flow detected by (Smith et al.), 670
Conduction, atrioventricular, automaticity, and threshold for stimulation in patients with impaired impulse formation or conduction, effect of glucagon on (Nishimura, Fortner, and Williams), 359
defects in coronary heart disease, incidence of persistent atrial fibrillation and (Örndahl, Thulesius, and Hood), 120
disturbances due to anteroseptal myocardial infarction and their treatment by endocardial pacing (Norris, Mercer, and Croxson), 560
Wolff-Parkinson-White type of: ECG effects of elevated cerebrospinal fluid pressure (Brashear and Edmands), 653
or impaired impulse formation, effect of glucagon on automaticity, threshold for stimulation, and atrioventricular conduction in patients with (Nishimura, Fortner, and Williams), 359
system, ventricular specialized, in man, localization of an area of maximum refractoriness or "gate" in the (Gallagher et al.), 310
Conductivity of intraventricular mass on QRS amplitude in different vertebrates, influence of (Manoach et al.), 576 (Letter to Editor) Reply (Pipberger, Ishikawa, and Berson), 579
of the blood and the body tissue and the amplitude of the QRS during heart filling and pericardial compression in the cat, relation between (Manoach et al.), 72
Congenital cardiac disease, concerning the etiology of (Ruttenberg), 437
heart disease, intrauterine virus infections and (Overall), 823
pulmonary complications of: hemoptysis (Haroutunian and Neill), 540
the scoliosis of (Jordan et al.), 463
pulmonary and subclavian arteries steal syndrome (Shaher et al.), 103
subclavian steal: case occurring in a neonate (Pieroni, Brodsky, and Rowe), 801
Constriction, pericardial, the jugular pulse in: its differentiation from that of cardiomyopathy (Lisa, Hood, and Tavel), 409
Coronary and non-coronary thromobsis and arrhythmia, experimental, effect of aspirin upon (Moschos et al.), 525
arteriography, selective, left ventricular end-diastolic pressures following (Kavanagh-Gray), 629
artery(s), angina pectoris and slow flow velocity of dye in—a new angiographic finding (Tambe et al.), 66
disease, in vitro serum cholesterol esterification in (Rutenberg et al.), 348
left, from the pulmonary artery, ejection fraction in anomalous origin of the (Menke, Shaher, and Wolff), 325
Coronary artery—Cont'd
surgery, randomized controlled trials of (Kayser), 580 (Letter to Editor)
atherosclerosis and myocardial infarction, pathogenesis of cardiac hypertrophy in (Badeer), 256
blood flow detected by computer analysis of serial scans, delayed (Smith et al.), 670
in reserpinized dogs, effect of hypoxia on (Koyama and Nakagawa), 487
embolization in the closed-chest dog, effects of dopamine on depressed myocardial function following (Lipp et al.), 208
heart disease, incidence of persistent atrial fibrillation and conduction defects in (Örndahl, Thulesius, and Hood), 120
Cor pulmonale and anterior wall myocardial infarction, vectocardiographic and electrocardiographic differentiation between (Watanabe et al.), 302
Cystic medionecrosis, unusual clinical manifestations of (Tse and Yu), 794

D

Decline and fall? (*Longevity*) (Walker), 420 (Annot.)
Deep vein thrombosis, the problems of (Browse), 149
Degeneration of myocardium, on the chemical nature of basophilic (mucoid) (Rosai), 419 (Annot.)
Demand pacemakers, "double reset" of (Barold and Carroll), 276 (Annot.)
Denervation, chemoreceptor, and adrenalectomy, ventricular responses to hypoxemia following (Achtel and Downing), 377
Depressed myocardial function following coronary embolization in the closed-chest dog, effects of dopamine on (Lipp et al.), 208
Deterioration, cardiac, replacing cardiac pain after surgery to revascularize the heart (Soloff), 446
Diastolic intervals, relationship of the jugular "C" wave to changing (Bonner and Tavel), 441
murmurs, functional (Luisada and Dayem), 265
Digitalis intoxication (Gómez), 285 (Letter to Editor)
Dilation, atrial, extreme left, external left atrial pulse tracings in (El-Sherif and El-Ramly), 387
Dilution techniques, indicator, use of to determine patency of internal mammary artery implants (Hendrix and Maloy), 136 (Annot.)
Disopyramide phosphate, cardiovascular effects of a newer antiarrhythmic agent (Mathur), 764
Dissociation, isorhythmic, atrioventricular interaction in (Diederich and Djonlagic), 429 (Letter to Editor) Reply (Paulay, Damato, and Bobb), 431
Dopamine, effects of on depressed myocardial function following coronary embolization in the closed-chest dog (Lipp et al.), 208
Doppler method, ultrasonic, and apexcardiography as reference tracings in phonocardiography, value of (Kostis et al.), 634
Dose of drugs, the—the right amount (Burch), 842 (Annot.)
Double-outlet right ventricle with left ventricular-right atrial communication: fibrous obstruction of left ventricular outlet by membranous septum and tricuspid leaflet tissue (Megarity et al.), 242

"Double reset" of demand pacemakers (Barold and Carroll), 276 (Annot.)
Drugs, dose of—the right amount (Burch), 842 (Annot.)
Duchenne's progressive muscular dystrophy, the vectocardiogram in (Ronan et al.), 588
Dye in coronary arteries, slow flow velocity of and angina pectoris—a new angiographic finding (Tambe et al.), 66
Dystrophy, muscular, Duchenne's progressive, the vectocardiogram in (Ronan et al.), 588

E

Ectopic tachycardia of infancy and childhood, chronic (Keane, Plauth, and Nadas), 748
Einthoven, G. J. Burch, and the capillary electrometer (Brody et al.), 280 (Annot.)
Ejection fraction in anomalous origin of the left coronary artery from the pulmonary artery (Menke, Shaher, and Wolff), 325
Electrical alternans (Spodick), 574 (Letter to Editor)
Reply (Usher and Popp), 574
Electrocardiogram(s) and vectorcardiogram in supravalvular aortic stenosis and coarctation of the aorta, the (Gaum, Chou, and Kaplan), 620
childhood, racial variations in the (Masica, Maron, and Krovetz), 153
intracavitary, analysis of through a saline bridge in diagnosis of cardiac arrhythmias (Trujillo et al.), 451
scalar orthogonal, effect of lidocaine on (Kermaier, Hayakawa, and Mandel), 366
Electrocardiographic and vectorcardiographic diagnosis of left posterior subdivision block, clinical, isolated or associated with RBBB (Medrano et al.), 727
differentiation between cor pulmonale and anterior wall myocardial infarction (Watanabe et al.), 302
effects of elevated cerebrospinal fluid pressure: Wolff-Parkinson-White type of conduction disturbance (Brashear and Edmands), 653
sign in acute myocardial infarction, prognostic value of (Mir), 183
Electrode, wire, hydrogen-sensitive, platinum-tipped, bedside diagnosis of postinfarction ventricular septal defect using the (Yatteau and Orgain), 712 (Annot.)
Electrometer, capillary, Einthoven, G. J. Burch, and the (Brody et al.), 280 (Annot.)
Embolectomy catheter, Fogarty arterial, a complication of (Oehlert), 484
Embolism, acute pulmonary, pulmonary cineangiography in (Meister et al.), 33
Embolization, coronary, in the closed-chest dog, effects of dopamine on depressed myocardial function following (Lipp et al.), 208
End-diastolic pressures, left ventricular, following selective coronary arteriography (Kavanagh-Gray), 629
Endocardial pacing, conduction disturbances due to anteroseptal myocardial infarction and their treatment by (Norris, Mercer, and Croxson), 560
Endocarditis, foreign body, long-term suppression of with cephalexin (Craig), 714 (Annot.)
primary infective, experience with surgical management of (Manhas et al.), 738
Endotoxin shock, aspirin and pulmonary lesions in (Murthy and Greenway), 581 (Letter to Editor)
Enzyme levels, serum, during exercise in patients with coronary heart disease: effects of training (Wolfson et al.), 478
Essential arterial hypertension, benign, management of (Burch), 808
Esterification in coronary artery disease, in vitro serum cholesterol (Rutenberg et al.), 348
Exercise, serum enzyme levels during in patients with coronary heart disease: effects of training (Wolfson et al.), 478
Experimental Luciani-Wenckebach phenomenon in anterior and posterior divisions of the left bundle branch of the canine heart (Kretz and Da Ruos), 513

F

Fallot, tetralogy of, left anterior hemiblock and right bundle branch block before and after surgical repair of (Chesler, Beck, and Schrire), 45
Familial trifascicular block, (Steenkamp), 758
Fascicular blocks vs. left ventricular hypertrophy (Breall), 575 (Letter to Editor)
Reply (Pryor), 576
Fibers, muscle, of the kidney and adrenal veins, interrupted eccentric longitudinal (Payan and Gilbert), 76
Fibrillation, atrial, and conduction defects in coronary heart disease, incidence of persistent (Örndahl, Thulesius, and Hood), 120
cardioversion of after valve replacement (Jenzer and Lown), 840 (Annot.)
threshold, ventricular, in normal dogs and dogs with acute myocardial infarction, effect of caffeine on (Bellet et al.), 215
ventricular, precipitated by carotid sinus pressure: case report and review of the literature (Cohen), 681
Fibrous obstruction of left ventricular outlet by membranous septum and tricuspid leaflet tissue: double-outlet right ventricle with left ventricular-right atrial communication (Megarity et al.), 242
Floating a catheter into the pulmonary artery in transposition of the great arteries (Black), 761
Fogarty arterial embolectomy catheter, a complication of (Oehlert), 484
Foreign body endocarditis, long-term suppression of with cephalexin (Craig), 714 (Annot.)
Friedreich's ataxia and myocardiopathies (Glasser), 843 (Letter to Editor)
Reply (Thilenius), 843
associated with idiopathic hypertrophic subaortic stenosis (Ruschhaupt, Thilenius, and Cassels), 95
Functional diastolic murmurs (Luisada and Dayem), 265

G

"Gate" or maximum refractoriness in the ventricular specialized conduction system in man, localization of an area of (Gallagher et al.), 310
G. J. Burch, Einthoven, and the capillary electrometer (Brody et al.), 280 (Annot.)
Glucagon on automaticity, threshold for stimulation, and atrioventricular conduction in patients with impaired impulse formation or conduction, effect of (Nishimura, Fortner, and Williams), 359
Great arteries, transposition of, floating a catheter into the pulmonary artery in (Black), 761
Guillain-Barré syndrome as a complication of the postperfusion syndrome, the (Costantino and Weintraub), 678

H

Heart(s) and atherosclerosis, animal studies of effect of chronic exercise on (Froelicher), 496
canine, expreimental Luciani-Wenckebach phenomenon in the anterior and posterior divisions of left bundle branch of (Kretz and Da Ruos), 513
catheterization, left, improved maneuver for, comment on (Maranhao), 145 (Letter to Editor)
disease, congenital, intrauterine virus infections and (Overall), 823
pulmonary complications of: hemoptysis (Haroutunian and Neill), 540
the scoliosis of (Jordan et al.), 463
coronary, incidence of persistent atrial fibrillation and conduction defects in (Örndahl, Thulesius, and Hood), 120
exchangeable potassium in: long-term effects of potassium supplements and amiloride (Croxson, Neutze, and John), 53,
ischemic, critical examination of the validity of vein grafts in treating (Yokoyama), 61
the Israel study: incidence of hypertension and associated factors (Kahn et al.), 171
rheumatic, the microvasculature of heart valves in (Farrer-Brown and Tarbit), 610
valvular, and renal function, interrelationship of hemodynamic alterations of: influences on renal sodium reabsorption (Porter et al.), 189
filling and pericardial compression in the cat, relation between the conductivity of the blood and the body tissue and the amplitude of the QRS during (Manoach et al.), 72
interventricular septum of, three divisions of: classification of septal defects by Manion (Szakacs), 572 (Annot.)
ischemic canine, functional capacity of major anastomoses in chronically (Cibulski et al.), 787
normal and dilated, angle of traction of papillary muscle in: theoretic analysis of its importance in mitral valve dynamics (Burch and Giles), 141 (Annot.)
patient and the nurse, the (Burch), 572 (Annot.)
pressures, right, during atrial pacing, assessment of LVEDP from (Linhart), 279 (Annot.)
revasculariz(ation), cardiac deterioration replacing cardiac pain after surgery to (Soloff), 446
valves in rheumatic heart disease, the microvasculature of (Farrer-Brown and Tarbit), 610
Hemiblock, left anterior, and right bundle branch block before and after surgical repair of tetralogy of Fallot (Chesler, Beck, and Schrire), 45
Hemodynamic(s) alterations of valvular heart disease and renal function, interrelationship of: influences on renal sodium reabsorption (Porter et al.), 189
and clinical changes in the first five years of life: ventricular septal defect (Collins et al.), 695
the cardiac patient and (Noordergraaf), 289
Hemoglobin affinity for oxygen, effects of antianginal medication on (Sugimoto and Ishikawa), 570 (Annot.)
oxygen content from per cent saturation data by nomogram, determination of (Pellecchia and Osiecki), 571 (Annot.)
Hemolysis in valve prosthesis, factors influencing Crexells et al.), 161
Hemoptysis: pulmonary complications of congenital heart disease (Haroutunian and Neill), 540
Hoarseness, cardiac causalgia and (Burch), 420 (Annot.)
Holter-Avionics system, reliability of in reproducing the ST-T segment (Stern and Tzivoni), 427 (Letter to Editor)
Hydrogen-sensitive, platinum-tipped, wire electrode, bedside diagnosis of postinfarction ventricular septal defect using the (Yatteau and Orgain), 712 (Annot.)
Hypertension and associated factors, the incidence of: Israel ischemic heart disease study (Kahn et al.), 171
benign essential arterial, management of (Burch), 808
in children (Londe and Goldring), 1
in dogs, hypoxic pulmonary, comparison of effects of two anesthetic agents on production of (Susmano, Passovoy, and Carleton), 203
Hypertrophic obstructive cardiomyopathy (Jacobs, Yee, and Yu), 428 (Leter to Editor)
Hypertrophy, cardiac, in coronary atherosclerosis and myocardial infarction, pathogenesis of (Badeer), 256
left ventricular, fascicular blocks vs. (Breall), 575 (Letter to Editor)
Reply (Pryor), 576
Hypotension, postural, in amyloid disease (Gaan et al.), 395
Hypoxemia following chemoreceptor denervation and adrenalectomy, ventricular responses to (Achtel and Downing), 377
Hypoxia, effect of on the coronary blood flow in reserpinized dogs (Koyama and Nakagawa), 487
Hypoxic pulmonary hypertension in dogs, comparison of effects of two anesthetic agents on production of (Susmano, Passovoy, and Carleton), 203

I

Idiopathic hypertrophic subaortic stenosis, Friedreich's ataxia associated with (Ruschhaupt, Thilenius, and Cassels), 95
Implants, internal mammary artery, use of indicator dilution techniques to determine patency of (Hendrix and Maloy), 136 (Annot.)
Improved maneuver for left heart catheterization, comment on (Maranhao), 145 (Letter to Editor)
Impulse formation, impaired, or conduction, effect of glucagon on automaticity, threshold for stimulation, and atrioventricular conduction in patients with (Nishimura, Fortner, and Williams), 359
Incidence of hypertension and associated factors: Israel ischemic heart disease study (Kahn et al.), 171
Indicator dilution techniques to determine patency of internal mammary artery implants, use of (Hendrix and Maloy), 136 (Annot.)
Infant with transposition of the great arteries I. Cardiac catheterization protocol (Mullins, Neches, and McNamara), 597
II. Results of balloon atrial septostomy (Neches, Mullins, and McNamara), 603
Infarctectomy in the surgical treatment of myocardial infarction, role of (Daggett et al.), 723

Infarction, acute anterior wall myocardial, incomplete bilateral bundle branch block and A-V block complicating (Fenig and Lichstein), 38
myocardial, effect of caffeine on ventricular fibrillation threshold in normal dogs and dogs with (Bellett et al.), 215
prognostic value of an electrocardiographic sign in (Mir), 183
anteroseptal myocardial, and their treatment by endocardial pacing, conduction disturbances due to (Norris, Mercer, and Croxson), 560
experimental myocardial, in unanesthetized monkeys (Hill et al.), 82
myocardial, and coronary atherosclerosis, pathogenesis of cardiac hypertrophy in (Badeer), 256
anterior wall, and cor pulmonale, vectorcardiographic and electrocardiographic differentiation between (Watanabe et al.), 302
in young people—experience in U. S. S. R. (Simonson and Berman), 814
role of infarctectomy in the surgical treatment of (Daggett et al.), 723
Inotropic effects of six clinically used antiarrhythmic agents, comparative (Hammermeister, Boerth, and Warbasse), 643
Internal mammary arteries implanted into canine myocardium, cause of luminal narrowing in (Yarbrough et al.), 507
Intervals, changing diastolic, the relationship of the jugular "C" wave to (Bonner and Tavel), 441
Interventricular septum of the heart, three divisions of: classification of septal defects by Manion (Szakacs), 572 (Annot.)
Intimal proliferation in aortic-coronary saphenous vein grafts. Light and electron microscopic studies (Kern, Dermer, and Lindesmith), 771
Intoxication, digitalis (Gómez), 285 (Letter to Editor)
Intracaval umbrella, thromboembolism with (Friedman et al.), 537
Intracavitary electrocardiograms, analysis of through a saline bridge in diagnosis of cardiac arrhythmias (Trujillo et al.), 451
Intrauterine virus infections and congenital heart disease (Overall), 823
Intraventricular mass, influence of conductivity of on QRS amplitude in different vertebrates (Manoach et al.), 576 (Letter to Editor)
Reply (Pipberger, Ishikawa, and Berson), 579
Inversions, ventricular, truncoconal morphologies, and visceral situs, rules for the diagnosis of (de la Cruz and Nadal-Ginard), 19
In vitro serum cholesterol esterification in coronary artery disease (Rutenberg et al.), 348
Ischemic canine hearts, functional capacity of major anastomoses in chronically (Cibulski et al.), 787
heart disease, critical examination of the validity of vein grafts in treating (Yokoyama), 61
study, the Israel: incidence of hypertension and associated factors (Kahn et al.), 171
Isorhythmic dissociation, atrioventricular interaction in (Diederich and Djonlagic), 429 (Letter to Editor)
Reply (Paulay, Damato, and Bobb), 431
Israel ischemic heart disease study: incidence of hypertension and associated factors (Kahn et al.), 171

J

Jugular "C" wave, the relationship of to changing diastolic intervals (Bonner and Tavel), 441
pulse in pericardial constriction, the: its differentiation from that of cardiomyopathy (Lisa, Hood, and Tavel), 409

K

Kidney and adrenal veins, interrupted eccentric longitudinal muscle fibers of (Payan and Gilbert), 76

L

Left ventricular end-diastolic pressures following selective coronary arteriography (Kavanagh-Gray), 629
Lesions, pulmonary, and aspirin in endotoxin shock (Murthy and Greenway), 581 (Letter to Editor)
Levels of concealment in second degree and advanced second degree A-V block (Watanabe and Dreifus), 330
Lidocaine on refractory periods in man, effects of (Josephson et al.), 778
on the scalar orthogonal electrocardiogram, effect of (Kermaier, Hayakawa, and Mandel), 366
Long-acting nitrites as antianginal drugs V. Medical treatment of angina pectoris (Aronow), 567
Long-term suppression of foreign body endocarditis with cephalexin (Craig), 714 (Annot.)
"Longevity"—Decline and fall? (Walker), 420 (Annot.)
Luciani-Wenckebach phenomenon, experimental, in anterior and posterior divisions of the left bundle branch of the canine heart (Kretz and Da Ruos), 513
Luminal narrowing in internal mammary arteries implanted into canine myocardium, cause of (Yarbrough et al.), 507
LVEDP from right heart pressures during atrial pacing, assessment of (Linhart), 279 (Annot.)

M

Mammary artery(s), implants, internal, use of indicator dilution techniques to determine patency of (Hendrix and Maloy), 136 (Annot.)
internal, implanted into canine myocardium, cause of luminal narrowing in (Yarbrough et al.), 507
Management of benign essential arterial hypertension (Burch), 808
Manion, classification of septal defects by: three divisions of the interventricular septum of the heart (Szakacs), 572 (Annot.)
Medical treatment of angina pectoris II. Design of an antianginal drug study (Aronow), 132
III. Pharmocology of sublingual nitrites as antianginal drugs (Aronow), 273
IV. Nitroglycerin as an antianginal drug (Aronow), 415
V. Long-acting nitrites as antianginal drugs (Aronow), 567
VI. Propanolol as an antianginal drug (Aronow), 706
VII. Newer beta-adrenergic blockers as antianginal drugs (Aronow), 834
Medionecrosis, cystic, unusual clinical manifestations of (Tse and Yu), 794

Membranous septum and tricuspid leaflet tissue, fibrous obstruction of left ventricular outlet by: double-outlet right ventricle with left ventricular-right atrial communication (Megarity et al.), 242
Metabolic changes in myocardium, regional blood sampling for assessing (Opie, Owen, and Thomas), 716 (Letter to Editor)
Reply (Obeid), 716
Microvasculature of heart valves in rheumatic heart disease, the (Farrer-Brown and Tarbit), 610
Mitral stenosis, the "closing snap" in (Tavel and Feigenbaum), 282 (Letter to Editor)
Reply (Rodbard), 283
valve area, modified orifice equation for the calculation of (Cohen and Gorlin), 839 (Annot.)
dynamics, angle of traction of papillary muscle in normal and dilated hearts, theoretic analysis of its importance in (Burch and Giles), 141 (Annot.)
Modified orifice equation for the calculation of mitral valve area (Cohen and Gorlin), 839 (Annot.)
Morphologies, truncoconal, ventricular inversions, and visceral situs, rules for the diagnosis of (de la Cruz and Nadal-Ginard), 19
Mucoid (basophilic) degeneration of myocardium, on the chemical nature of (Rosai), 419 (Annot.)
Muscle fibers of the kidney and adrenal veins, interrupted eccentric longitudinal (Payan and Gilbert), 76
Muscular dystrophy, Duchenne's progressive, the vectorcardiogram in (Ronan et al.), 588
subaortic stenosis and Friedreich's ataxia (Elias), 843 (Letter to Editor)
Reply (Thilenius), 843
Myocardial function, depressed, following coronary embolization in the closed-chest dog, effects of dopamine on (Lipp et al.), 208
infarction, acute anterior wall, incomplete bilateral bundle branch block and A-V block complicating (Fenig and Lichstein), 38
effect of caffeine on ventricular fibrillation threshold in normal dogs and dogs with (Bellet et al.), 215
prognostic value of an electrocardiographic sign in (Mir), 183
and coronary atherosclerosis, pathogenesis of cardiac hypertrophy in (Badeer), 256
anterior wall, and cor pulmonale, vectorcardiographic and electrocardiographic differentiation between (Watanabe et al.), 302
anteroseptal, and their treatment by endocardial pacing, conduction disturbances due to (Norris, Mercer and Croxson), 560
in unanesthetized monkeys, experimental (Hill et al.), 82
in young people—experience in U. S. S. R. (Simonson and Berman), 814
role of infarctectomy in the surgical treatment of (Daggett et al.), 723
Myocardiopathies and Friedreich's ataxia (Glasser), 843 (Letter to Editor)
Reply (Thilenius), 843
Myocardium, canine, cause of luminal narrowing in internal mammary arteries implanted into (Yarbrough et al.), 507
degeneration of, on the chemical nature of basophilic (mucoid) (Rosai), 419 (Annot.)
Myocardium—Cont'd
metabolic changes in, regional blood sampling for assessing (Opie, Owen, and Thomas), 716 (Letter to Editor)
Reply (Obeid), 716
Myxoid changes in cardiac valves: pathological, clinical, and ultrastructural studies (Kern and Tucker), 294

N

Narrowing, luminal, in internal mammary arteries implanted into canine myocardium, cause of (Yarbrough et al.), 507
Neonate, case of congenital subclavian steal occurring in a (Pieroni, Brodsky, and Rowe), 801
Nitrites, long-acting, as antianginal drugs V. Medical treatment of angina pectoris (Aronow), 567
sublingual, as antianginal drugs, pharmacology of III. Medical treatment of angina pectoris (Aronow), 273
Nitroglycerin as an antianginal drug. Medical treatment of angina pectoris IV. (Aronow), 415
Nomogram, determination of hemoglobin oxygen content from per cent saturation data by (Pellecchia and Osiecki), 571 (Annot.)
Non-coronary and coronary thrombosis and arrhythmia, experimental, effect of aspirin upon (Moschos et al.), 525
Nurse and the heart patient, the (Burch), 572 (Annot.)

O

Open-heart surgery, response of Class IV patients to alpha blockade prior to (Burack et al.), 456
Orifice equation, modified, for the calculation of mitral valve area (Cohen and Gorlin), 839 (Annot.)
Orthogonal electrocardiogram, scalar, effect of lidocaine on (Kermaier, Hayakawa, and Mandel), 366
Ouabain on cardiac output and pulmonary blood flow in dogs, effects of (Treat et al.), 371
Oxygen content, hemoglobin, from per cent saturation data by nomogram, determination of (Pellecchia and Osiecki), 571 (Annot.)
hemoglobin affinity for, effect of antianginal medication on (Sugimoto and Ishikawa), 570 (Annot.)

P

Pacemakers, demand, "double reset" of (Barold and Carroll), 276 (Annot.)
Pacing, atrial, assessment of LVEDP from right heart pressures during (Linhart), 279 (Annot.)
endocardial, conduction disturbances due to anteroseptal myocardial infarction and their treatment by (Norris, Mercer, and Croxson), 560
Papillary muscle in normal and dilated hearts, angle of traction of: theoretic analysis of its importance in mitral valve dynamics (Burch and Giles), 141 (Annot.)
Patency of internal mammary artery implants, use of indicator dilution techniques to determine (Hendrix and Maloy), 136 (Annot.)
Pathogenesis of cardiac hypertrophy in coronary atherosclerosis and myocardial infarction (Badeer), 256

Patient, heart, and the nurse (Burch), 572 (Annot.)
Pericardial compression and heart filling in the cat, relation between the conductivity of the blood and the body tissue and the amplitude of the QRS during (Manoach et al.), 72
constriction, the jugular pulse in: its differentiation from that of cardiomyopathy (Lisa, Hood, and Tavel), 409
tamponade: hazards of central venous pressure monitoring (Homesley and Zelenik), 135 (Annot.)
Pharmacology of sublingual nitrites as antianginal drugs III. Medical treatment of angina pectoris (Aronow), 273
Phonocardiography, value of ultrasonic Doppler method and apexcardiography as reference tracings in (Kostis et al.), 634
Phosphorus poisoning in man, acute elemental: cardiovascular toxicity (Talley et al.), 139 (Annot.)
Physicians, training, trends in (Burch), 429 (Letter to Editor)
Platinum-tipped, hydrogen-sensitive, wire electrode, bedside diagnosis of postinfarction ventricular septal defect using the (Yatteau and Orgain), 712 (Annot.)
Poisoning in man, acute elemental phosphorus: cardiovascular toxicity (Talley et al.), 139 (Annot.)
Postinfarction ventricular septal defect using the hydrogen-sensitive, platinum-tipped, wire electrode, bedside diagnosis of (Yatteau and Orgain), 712 (Annot.)
Postperfusion syndrome, the Guillain-Barré syndrome as a complication of the (Costantino and Weintraub), 678
Postural hypotension in amyloid disease (Gaan et al.), 395
Potassium, exchangeable, in heart disease: long-term effects of potassium supplements and amiloride (Croxson, Neutze, and John), 53
supplements and amiloride, long term effects of: exchangeable potassium in heart disease (Croxson, Neutze, and John), 53
Practolol in the treatment of tachyarrhythmias in patients with bronchial asthma (Formgren), 710 (Annot.)
Pregnancy, anticoagulants in (Quick), 284 (Letter to Editor)
Pressure(s), blood, of !Kung bushmen in Northern Botswana (Truswell et al.), 5
cerebrospinal fluid, elevated, ECG effects of: Wolff-Parkinson-White type of conduction disturbance (Brashear and Edmands), 653
left ventricular end-diastolic, following selective coronary arteriography (Kavanagh-Gray), 629
monitoring, central venous, hazards of: pericardial tamponade (Homesley and Zelenik), 135 (Annot.)
right heart, assessment of LVEDP from during atrial pacing (Linhart), 279 (Annot.)
Primary infective endocarditis, experience with surgical management of (Manhas et al.), 738
Procainamide, antinuclear antibody response to in man and laboratory animals (Whittingham et al.), 228
Prognostic value of an electrocardiographic sign in acute myocardial infarction (Mir), 183
Propranolol as an antianginal drug VI. The medical treatment of angina pectoris (Aronow), 706
Prosthesis, valve, factors influencing hemolysis in (Crexells et al.), 161
Pulmonary (arteries), congenital, and subclavian arteries steal syndrome (Shaher et al.), 103
floating a catheter into in transposition of the great arteries (Black), 761
from the left coronary artery, ejection fraction in anomalous origin of the (Menke, Shaher, and Wolff), 325
blood flow and cardiac output in dogs, effects of ouabain on (Treat et al.), 371
cineangiography in acute pulmonary embolism (Meister et al.), 33
complications of congenital heart disease: hemoptysis (Haroutunian and Neill), 540
embolism, acute, pulmonary cineangiography in (Meister et al.), 33
hypertension in dogs, hypoxic, comparison of effects of two anesthetic agents on production of (Susmano, Passovoy, and Carleton), 203
lesions and aspirin in endotoxin shock (Murthy and Greenway), 581 (Letter to Editor)
Pulse, carotid displacement, the first derivative of (Khan and Spodick), 470
jugular, in pericardial constriction: its differentiation from that of cardiomyopathy (Lisa, Hood, and Tavel), 409
tracings, external left atrial, in extreme left atrial dilation (El-Sherif and El-Ramly), 387
Pump, the endurance of the (Walker), 585

Q

QRS amplitude, body tissue and conductivity of the blood during heart filling and pericardial compression in the cat, relation between (Manoach et al.), 72
in different vertebrates, influence of conductivity of intraventricular mass on (Manoach et al.), 576 (Letter to Editor)
Reply (Pipberger, Ishikawa, and Berson), 579

R

Racial variations in the childhood electrocardiogram: preliminary observations (Masica, Maron, and Krovetz), 153
Randomized controlled trials of coronary artery surgery (Kayser), 580 (Letter to Editor)
Raynaud's disease and reflex vasodilatation (Burch), 277 (Annot.)
RBBB, Clinical electrocardiographic and vectorcardiographic diagnosis of left posterior subdivision block, isolated or associated with (Medrano et al.), 727
Recurrent ventricular tachycardia, diagnosis and treatment of a case of (Barry et al.), 235
Reflex vasodilatation and Raynaud's disease (Burch), 277 (Annot.)
Refractoriness, maximum, or "gate" in the ventricular specialized conduction system in man, localization of an area of (Gallagher et al.), 310
Refractory periods in man, effects of lidocaine on (Josephson et al.), 778
Regional blood sampling for assessing metabolic changes in myocardium (Opie, Owen, and Thomas), 716 (Letter to Editor)
Reply (Obeid), 716
Reliability of the Holter-Avionics system in reproducing the ST-T segment (Stern and Tzivoni), 427 (Letter to Editor)

Renal function and valvular heart disease, interrelationship of hemodynamic alterations of: influences on renal sodium reabsorption (Porter et al.), 189
sodium reabsorption, influences on: interrelationship of hemodynamic alterations of valvular heart disease and renal function (Porter et al.), 189
Reserpinized dogs, effects of hypoxia on the coronary flow in (Koyama and Nakagawa), 487
Rheumatic heart disease, the microvasculature of heart valves in (Farrer-Brown and Tarbit), 610
Right amount of dose of drugs (Burch), 842 (Annot.)
Roentgenographic assessment of anatomic deformity in calcific aortic stenosis, a new (Stein), 321

S

Saline bridge, analysis of intracavitary electrocardiograms through in diagnosis of cardiac arrhythmias (Trujillo et al.), 451
Saphenous vein grafts, intimal proliferation in aortic-coronary. Light and electron microscopic studies (Kern, Dermer, and Lindesmith), 771
Saturation data, per cent, by nomogram, determination of hemoglobin oxygen content from (Pellecchia and Osiescki), 571 (Annot.)
Scalar orthogonal electrocardiogram, effect of lidocaine on (Kermaier, Hayakawa, and Mandel), 366
Schrire, Velva: 1917-1972 (Gotsman), 424 (Obituary)
Scoliosis of congenital heart disease, the (Jordan et al.), 463
Second degree and advanced second degree A-V block, levels of concealment in (Watanabe and Dreifus), 330
Septal defect(s), classification of by Manion: three divisions of the interventricular septum of the heart (Szakacs), 572 (Annot.)
ventricular: clinical and hemodynamic changes in the first five years of life (Collins et al.), 695
postinfarction, using the hydrogen-sensitive, platinum-tipped, wire electrode, bedside diagnosis of (Yatteau and Orgain), 712 (Annot.)
Septostomy, balloon atrial, results of II. Infant with transposition of the great arteries (Neches, Mullins, and McNamara), 603
Septum, interventricular, of the heart, three divisions of: classification of septal defects by Manion (Szakacs), 572 (Annot.)
membranous, and tricuspid leaflet tissue, fibrous obstruction of left ventricular outlet by: double-outlet right ventricle with left ventricular-right atrial communication (Megarity et al.), 242
Serial scans, delayed coronary blood flow detected by computer analysis of (Smith et al.), 670
Serum cholesterol esterification in coronary artery disease, in vitro (Rutenberg et al.), 348
enzyme levels during exercise in patients with coronary heart disease: effects of training (Wolfson et al.), 478
Sinus pressure, carotid, ventricular fibrillation precipitated by: case report and review of the literature (Cohen), 681
Situs, visceral, truncoconal morphologies, and ventricular inversions, rules for the diagnosis of (de la Cruz and Nadal-Ginard), 19
"Snap, closing," in mitral stenosis, the (Tavel and Feigenbaum), 282 (Letter to Editor)
Reply (Rodbard), 283
Sodium reabsorption, renal, influences on: interrelationship of hemodynamic alterations of valvular heart disease and renal function (Porter et al.), 189
Sphygmomanometer in every home, a (Burch), 710 (Annot.)
Steal (syndrome), congenital subclavian: case occurring in a neonate (Pieroni, Brodsky, and Rowe), 801
subclavian arteries, congenital pulmonary and (Shaher et al.), 103
Stenosis, calcific aortic, a new roentgenographic assessment of anatomic deformity in (Stein), 321
idiopathic hypertrophic subaortic, Friedreich's ataxia associated with (Ruschhaupt, Thilenius, and Cassels), 95
mitral, the "closing snap" in (Tavel and Feigenbaum), 282 (Letter to Editor)
Reply (Rodbard), 283
muscular subaortic, and Friedreich's ataxia (Elias), 843 (Letter to Editor)
Reply (Thilenius), 843
supravalvular aortic, and coarctation of the aorta, the vectorcardiogram and electrocardiogram in (Gaum, Chou, and Kaplan), 620
Stimulation, threshold for, automaticity, and atrioventricular conduction in patients with impaired impulse formation or conduction, effect of glucagon on (Nishimura, Fortner, and Williams), 359
ST-T segment, reliability of the Holter-Avionics system in reproducing the (Stern and Tzivoni), 427 (Letter to Editor)
Subaortic stenosis, idiopathic hypertrophic, Friedreich's ataxia associated with (Ruschhaupt, Thilenius, and Cassels), 95
muscular, and Friedreich's ataxia (Elias), 843 (Letter to Editor)
Reply (Thilenius), 843
Subclavian arteries steal syndrome, congenital pulmonary and (Shaher et al.), 103
steal, congenital: case occurring in a neonate (Pieroni, Brodsky, and Rowe), 801
Subdivision block, left posterior, isolated or associated with RBBB, clinical electrocardiographic and vectorcardiographic diagnosis of (Medrano et al.). 727
Sublingual nitrites as antianginal drugs, pharmacology of III. Medical treatment of angina pectoris (Aronow), 273
Supravalvular aortic stenosis and coarctation of the aorta, the vectorcardiogram and electrocardiogram in (Gaum, Chou, and Kaplan), 620
Surgical management of primary infective endocarditis, experience with: collected review of 139 patients (Manhas et al.), 738
treatment of myocardial infarction, role of infarctectomy in the (Daggett et al.), 723

T

Tachyarrhythmias in patients with bronchial asthma, practolol in the treament of (Formgren), 710 (Annot.)
Tachycardia of infancy and childhood, chronic ectopic (Keane, Plauth, and Nadas), 748
recurrent ventricular, diagnosis and treatment of a case of (Barry et al.), 235
Tamponade, pericardial: hazards of central venous pressure monitoring (Homesley and Zelenik), 135 (Annot.)

Terminology in catheter marking (Pfeiffer), 718 (Letter to Editor)
Tetralogy of Fallot, left anterior hemiblock and right bundle branch block before and after surgical repair of (Chesler, Beck, and Schrire), 45
Threshold for stimulation, automaticity, and atrioventricular conduction in patients with impaired impulse formation or conduction, effect of glucagon on (Nishimura, Fortner, and Williams), 359
Thromboembolism with the intracaval umbrella (Friedman et al.), 537
Thrombosis and arrhythmia, non-coronary and coronary, experimental, effect of aspirin upon (Moschos et al.), 525
deep vein, the problems of (Browse), 149
Traction, angle of, of papillary muscle in normal and dilated hearts: theoretic analysis of its importance in mitral valve dynamics (Burch and Giles), 141 (Annot.)
Training physicians, trends in (Burch), 429 (Letter to Editor)
Transposition of the great arteries, floating a catheter into the pulmonary artery in (Black), 761
the infant with I. Cardiac catheterization protocol (Mullins, Neches, and McNamara), 597
II. Results of balloon atrial septostomy (Neches, Mullins, and McNamara), 603
Trends in training physicians (Burch), 429 (Letter to Editor)
Tricuspid leaflet tissue, fibrous obstruction of left ventricular outlet by membranous septum and: double-outlet right ventricle with left ventricular-right atrial communication (Megarity et al.), 242
Trifascicular block, familial (Steenkamp), 758
Truncoconal morphologies, ventricular inversions, and visceral situs, rules for the diagnosis of (de la Cruz and Nadal-Ginard), 19
Two hundredth anniversary of self-prediction of sudden, exertional cardiac death (Bruce), 422 (Annot.)

U

Ultrasonic Doppler method and apexcardiography as reference tracings in phonocardiography, value of (Kostis et al.), 634
U. S. S. R., experience with myocardial infarction in young people in (Simonson and Berman), 814

V

Valve(s) area, mitral, modified orifice equation for the calculation of (Cohen and Gorlin), 839 (Annot.)
cardiac, myxoid changes in: pathological, clinical, and ultrastructural studies (Kern and Tucker), 294
dynamics, mitral, angle of traction of papillary muscle in normal and dilated hearts, theoretic analysis of its importance in (Burch and Giles), 141 (Annot.)
heart, in rheumatic heart disease, the microvasculature of (Farrer-Brown and Tarbit), 610
prosthesis, factors influencing hemolysis in (Crexells et al.), 161
replacement and left atrial appendage (Thomas), 838 (Annot.)
cardioversion of atrial fibrillation after (Jenzer and Lown), 840 (Annot.)
Valvular heart disease and renal function, interrelationship of hemodynamic alterations of: influences on renal sodium reabsorption (Porter et al.), 189
Vasodilatation, reflex, and Raynaud's disease (Burch), 277 (Annot.)
Vectorcardiogram and electrocardiogram in supravalvular aortic stenosis and coarctation of the aorta, the (Gaum, Chou, and Kaplan), 620
in Duchenne's progressive muscular dystrophy, the (Ronan et al.), 588
Vectorcardiographic and electrocardiographic diagnosis of left posterior subdivision block, clinical, isolated or associated with RBBB (Medrano et al.), 727
differentiation between cor pulmonale and anterior wall myocardial infarction (Watanabe et al.), 302
Vein(s), adrenal, and kidney, interrupted eccentric longitudinal muscle fibers of (Payan and Gilbert), 76
grafts in treating ischemic heart disease, critical examination of the validity of (Yokoyama), 61
saphenous, intimal proliferation in aortic coronary. Light and electron microscopic studies (Kern, Dermer, and Lindesmith), 771
thrombosis, deep, the problems of (Browse), 149
Velva Schrire: 1917-1972 (Gotsman), 424 (Obituary)
Venous pressure monitoring, central, hazards of: pericardial tamponade (Homesley and Zelenik), 135 (Annot.)
Ventricle, double-outlet right, with left ventricular-right atrial communication: fibrous obstruction of left ventricular outlet by membranous septum and tricuspid leaflet tissue (Megarity et al.), 242
Ventricular end-diastolic pressures following selective coronary arteriography, left (Kavanagh-Gray), 629
fibrillation precipitated by carotid sinus pressure: case report and review of the literature (Cohen), 681
threshold in normal dogs and dogs with acute myocardial infarction, effect of caffeine on (Bellet et al.), 215
hypertrophy, left fascicular blocks vs. (Breall), 575 (Letter to Editor)
Reply (Pryor), 576
inversions, truncoconal morphologies, and visceral situs, rules for the diagnosis of (de la Cruz and Nadal-Ginard), 19
left-right atrial communication, double-outlet right ventricle with: fibrous obstruction of left ventricular outlet by membranous septum and tricuspid leaflet tissue (Megarity et al.), 242
outlet, left, fibrous obstruction of by membranous septum and tricuspid leaflet tissue: double-outlet right ventricle with left ventricular-right atrial communication (Megarity et al.), 242
recovery, sequence of normal (Burgess et al.), 660
responses to hypoxemia following chemoreceptor denervation and adrenalectomy (Achtel and Downing), 377
septal defect: clinical and hemodynamic changes in the first five years of life (Collins et al.), 695
postinfarction, using the hydrogen-sensitive, platinum-tipped, wire electrode, bedside diagnosis of (Yatteau and Orgain), 712 (Annot.)

Ventricular—Cont'd
specialized conduction system in man, localization of an area of maximum refractoriness or "gate" in the (Gallagher et al.), 310
tachycardia, recurrent, diagnosis and treatment of a case of (Barry et al.), 235
Virus infections, intrauterine, and congenital heart disease (Overall), 823
Visceral situs, truncoconal morphologies, and ventricular inversions, rules for the diagnosis of (de la Cruz and Nadal-Ginard), 19

W
Wedensky inhibition (Klein, Cranefield, and Hoffman), 717 (Letter to Editor)
Reply (Danz[illegible]g), 71[illegible]7
Wolff-Parkinson-W[illegible]te [illegible]e. of conduction disturbance: EC[illegible] [illegible]cts of elevated cerebrospinal flu[illegible] pre[illegible]ure (Brashear and Edmands), 0[illegible]

Y
Young people, myocardial infarction in—experience in U. S. S. R. (Simonson and Berman), 814
